

Introduction to the module PT4000 and PT7003: Physiotherapy Theory and Practice 1: Long-term conditions

Walaa Abu-Taleb

Meet our Team

Mr Graham Pitkin (Physiotherapy Technician)
g.pitkin1@londonmet.ac.uk

Professor Isaac O. Sorinola

Irvind Sihota

Isobel Davies

Dr Ngozi Onuegbu

Walaa Abu-Taleb

Module Overview

- The aim of this module is to develop your ability in a range of core knowledge, skills and attitudes required for the assessment, communication, problem identification, goal setting, treatment, management, and evaluation of effective Physiotherapy practice when working with individuals with long term conditions affecting musculoskeletal, cardiorespiratory, and neurological conditions.

Module's Learning Outcomes

- Demonstrate use of the knowledge and understanding of human functioning to account for underlying impairments associated with common long-term conditions seen by Physiotherapists in a variety of clinical settings.
- Demonstrate appropriate skills required for the assessment of individuals affected by long-term conditions using different sources of evidence including subjective and objective assessments to collate a problem list.
- Use basic clinical reasoning skills to form appropriate person-centred treatment goals for individuals with common long-term conditions in a variety of clinical contexts using a biopsychosocial framework.
- Select and deliver safe and effective evidence-based physiotherapy treatments as part of a multidisciplinary management plan to optimise outcomes for individuals with long term and related conditions, their changing problems, environment, psychosocial needs, family/carer and self-management.
- Work safely and effectively within own scope of practice in collaboration with others and refer appropriately when necessary.
- Analyse and justify the role for physiotherapy within a multidisciplinary approach to recovery, rehabilitation and re-ablement services for individuals with long term and related conditions seen by physiotherapists in different contexts.

Module information

Courses the module is available on	MSc Physiotherapy (pre-registration)
Module code	PT4000
Module level and credit rating	Level 4 30 credits
School	School of Human Sciences
Teaching period	Year Long (30 weeks)
Total learning hours for the module	300 hours

Module’s information

Courses the module is available on	MSc Physiotherapy (pre-registration)
Module code	PT7003
Module level and credit rating	Level 7 20 credits
School	Human Sciences
Teaching period	Year Long (30 weeks)
Total learning hours for the module	200hours

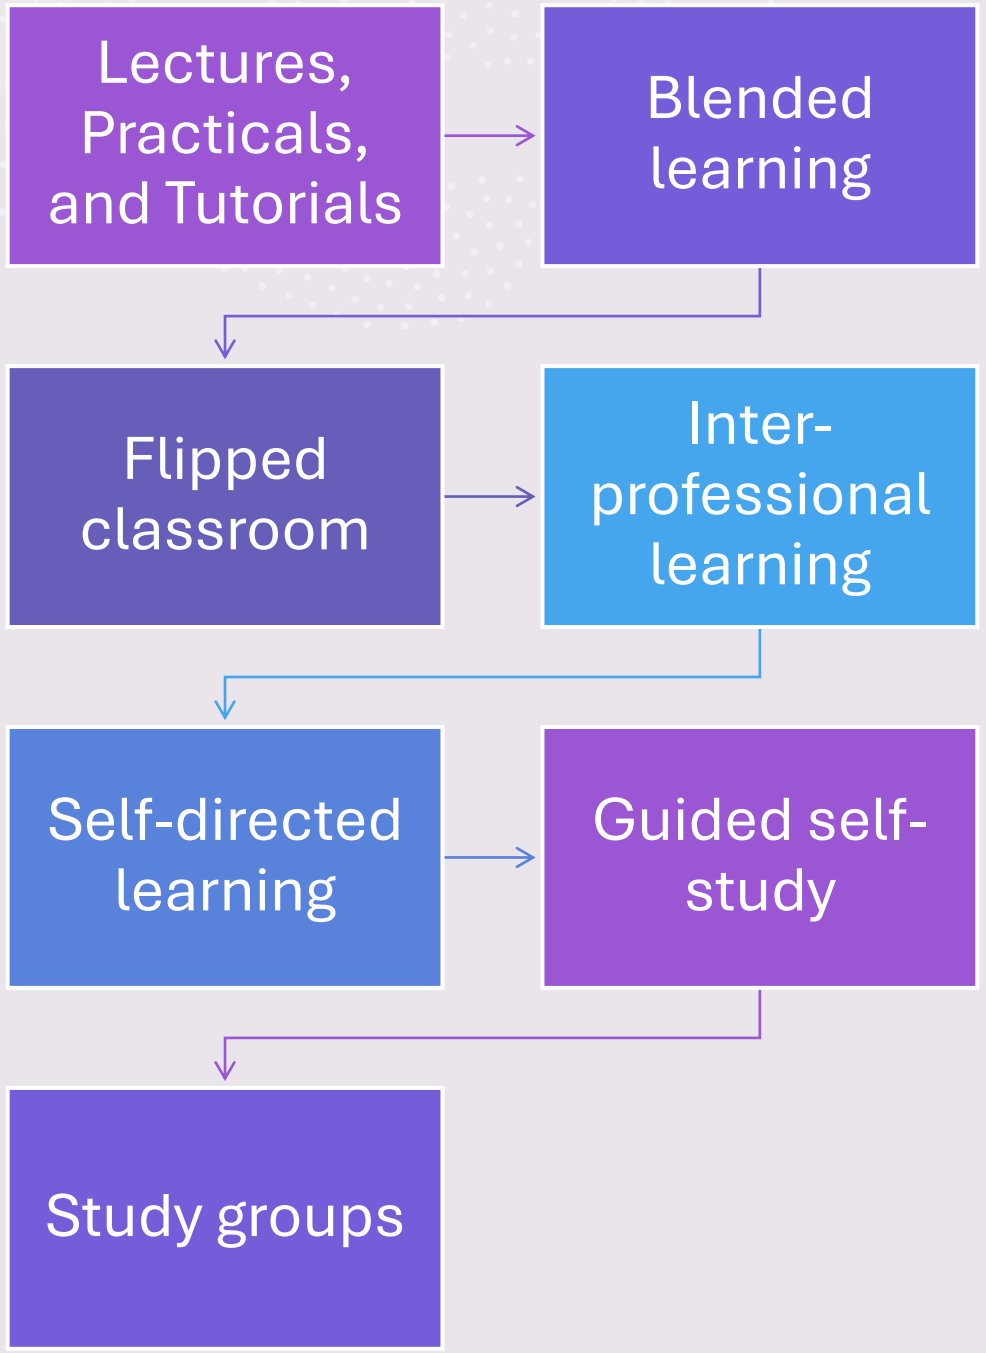

Related Modules

  Physiotherapy theory and practice2: Acute conditions
  Lead by Irvind Sihota

- Applied Sciences 1 and 2 PT7001
  Anatomy, physiology, biomechanics and Psychology

- Placement and Practice Education

TEACHING APPROACHES

Musculoskeletal

- Background knowledge and terminologies
- Communication and Consent
- Assessment in MSK: subjective and objective assessment
- Treatment in MSK
- Clinical Reasoning in MSK
- Arthropathies
- Case studies

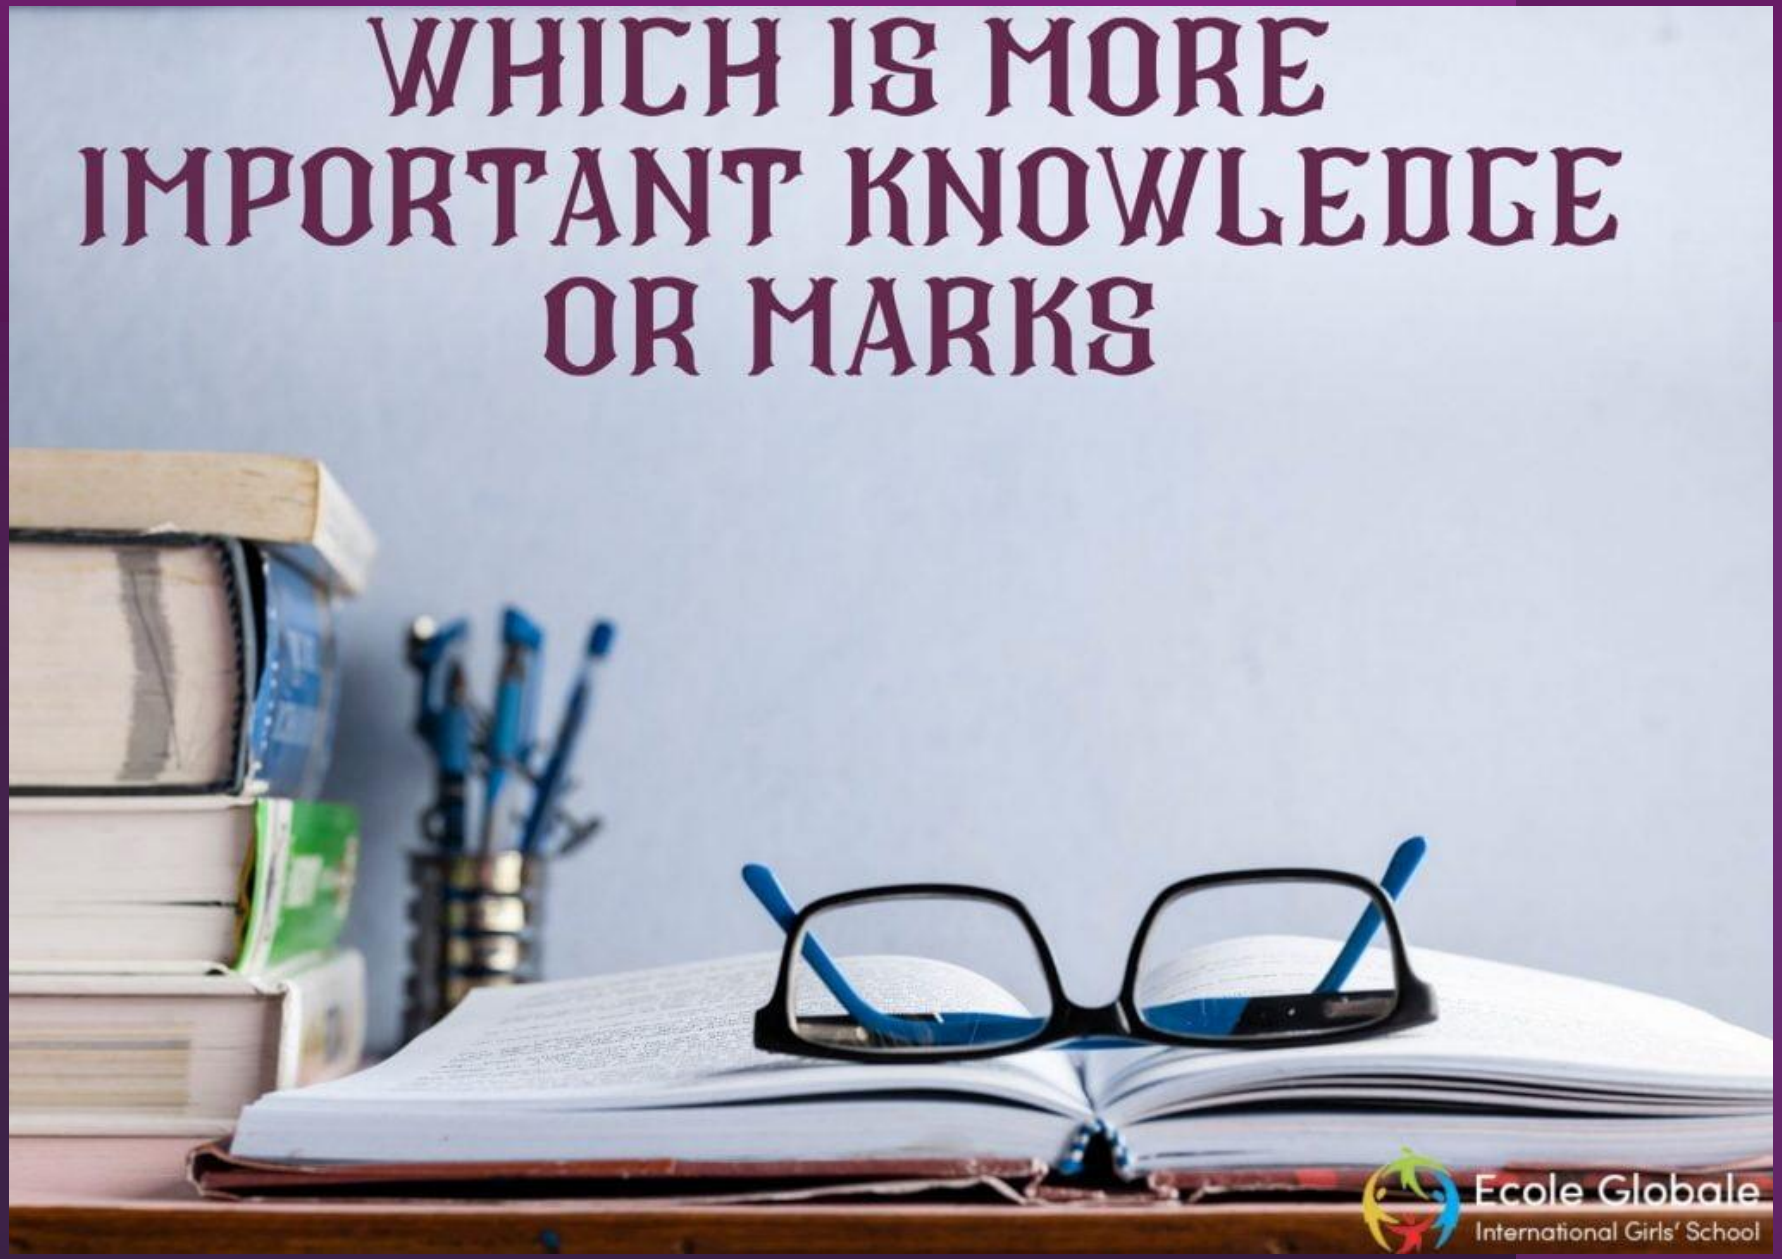

Neuro-physiotherapy

- Background knowledge
- Assessment in Neuro
- Treatment in Neuro
- Focus on some specific conditions
- Case studies

Cardiorespiratory

- Background knowledge
- Assessment in Cardiorespiratory
- Treatment in Cardiorespiratory
- Focus on some conditions
- Case Studies

Assessment PT7003 and PT4000

Two parts assessment:

Problem solving essay

- This 2000-word essay will explore student's ability to plan an evidenced based management for an individual with long term conditions using a biopsychosocial framework.
- The essay will require students to explore all possible management approaches including multi-disciplinary strategies to optimise patient functioning in both short and longer terms.
- This assessment will account for 50% of module marks for the MSc and 40% for the BSc.
- Students will have an opportunity to practice planning evidence-based management for clinical case studies throughout the module and given a formative opportunity to practice writing a short essay and receive feedback before the actual assessment.
- Time to submit the assignment is Week 9, 2nd Semester.

Assessment PT7003

Two parts assessment:

Objective Structure Clinical Examination (OSCE)

- The OSCE will will examine student's practical and clinical reasoning skills for the assessment and delivery of physiotherapy interventions to optimise functioning in individuals with long term conditions within a multidisciplinary context.
- This assessment will account for 50% of module marks for the MSc and 40% for the BSc. 20% attendance for the BSc
- A formative practice OSCE will be scheduled before students do the actual assessment.
- Time of the assessment: Second Semester Exam weeks (Week 28/29)

Passing Criteria

Attendance of 80% of the coursework is mandatory.

Both module assessments must be passed to pass module

The student will need demonstrate their achievement learning outcomes of the module

- If you cannot attend a final assessment, you must submit mitigating circumstances in advance. 2nd attempt is capped at passing degree 50%

Undergraduate courses (starting in September 2024)

Term	Start	End
Autumn	16 September 2024	13 December 2024
Spring	13 January 2025	11 April 2025
Summer	28 April 2025	30 May 2025
Reassessment period	7 July 2025	25 July 2025

Key dates

Activity	Start	End
Welcome week (enrolment/induction)	16 September 2024	-
Teaching	23 September 2024	13 December 2024
Christmas vacation	16 December 2024	10 January 2025
Examinations (for Autumn modules)	13 January 2025	31 January 2025
Teaching	3 February 2025	11 April 2025
Easter vacation	14 April 2025	27 April 2025
Teaching	28 April 2025	9 May 2025
Examinations (for spring/year-long modules)	12 May 2025	30 May 2025
Summer vacation	2 June 2025	14 September 2025
Reassessment period		
Examinations	7 July 2025	25 July 2025
Coursework deadline	25 July 2025	-

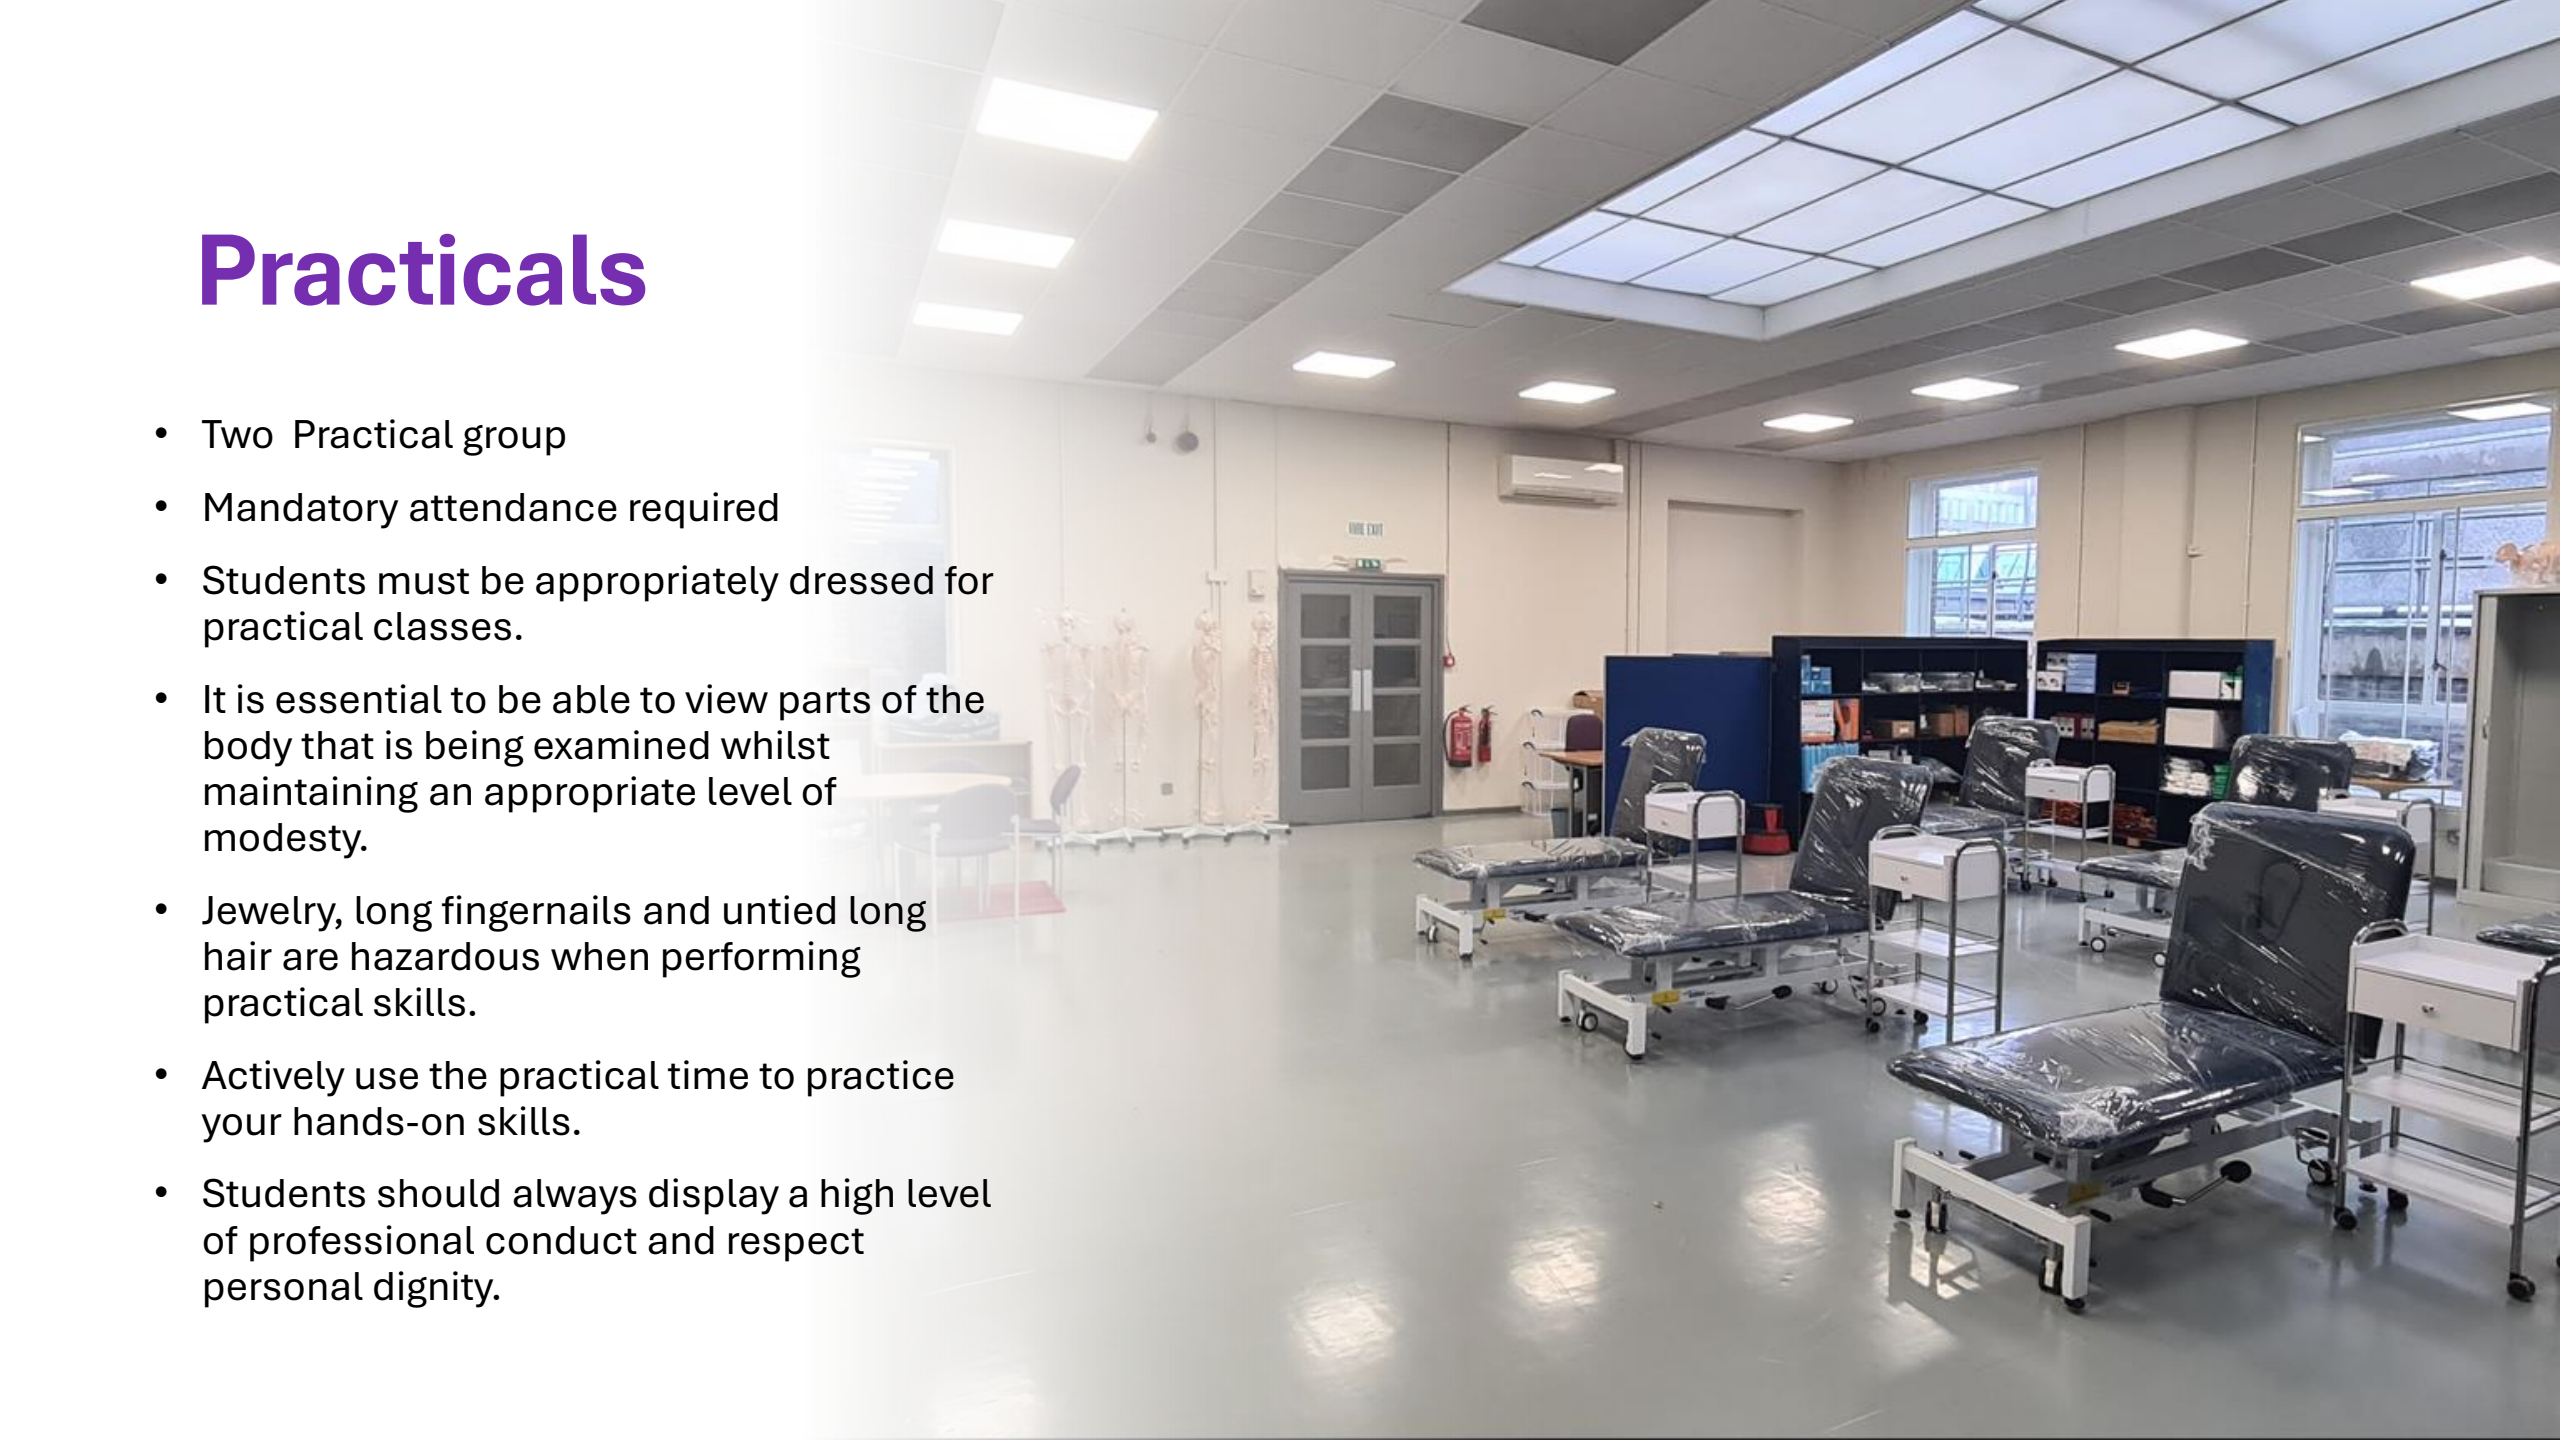

Our expectation of you

- Professionalism and teamwork.
- Hard work and resource utilisation
- Active participation
- Engagement and time management.
- Enjoy your time learning
- Resilience
- Look after yourself

Practicals

- Two Practical group
- Mandatory attendance required
- Students must be appropriately dressed for practical classes.
- It is essential to be able to view parts of the body that is being examined whilst maintaining an appropriate level of modesty.
- Jewelry, long fingernails and untied long hair are hazardous when performing practical skills.
- Actively use the practical time to practice your hands-on skills.
- Students should always display a high level of professional conduct and respect personal dignity.

Tutorials

- Mandatory attendance
- Might be shared with the MSc sometimes.
- Sessions are not traditionally recorded.
- Prepare ahead to the session by reading the material and prepare the presession guidance
- Use the time to develop your critical thinking skills
- Be cooperative and respect your peers

Navigating the module

Weblearn: Virtual Learning Environment

Weblearn is the University's Virtual Learning Environment (VLE) where students can find learning resources such as lecture notes, reading materials, discussion forums, quizzes and online submission tools.

Access to Weblearn

All students will be able to login to Weblearn as soon as they have their London Met IT account details.

Modules you are registered on for your course will become available on your Modules page one week before the start of teaching.

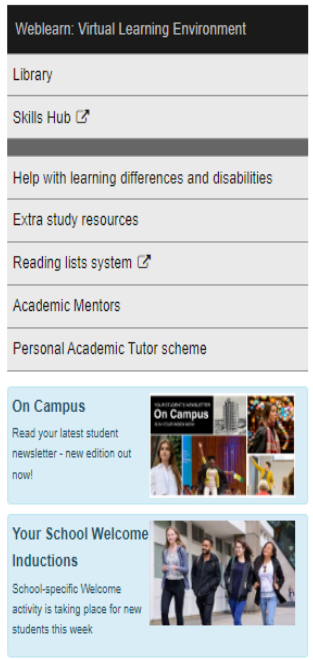

Login to Weblearn

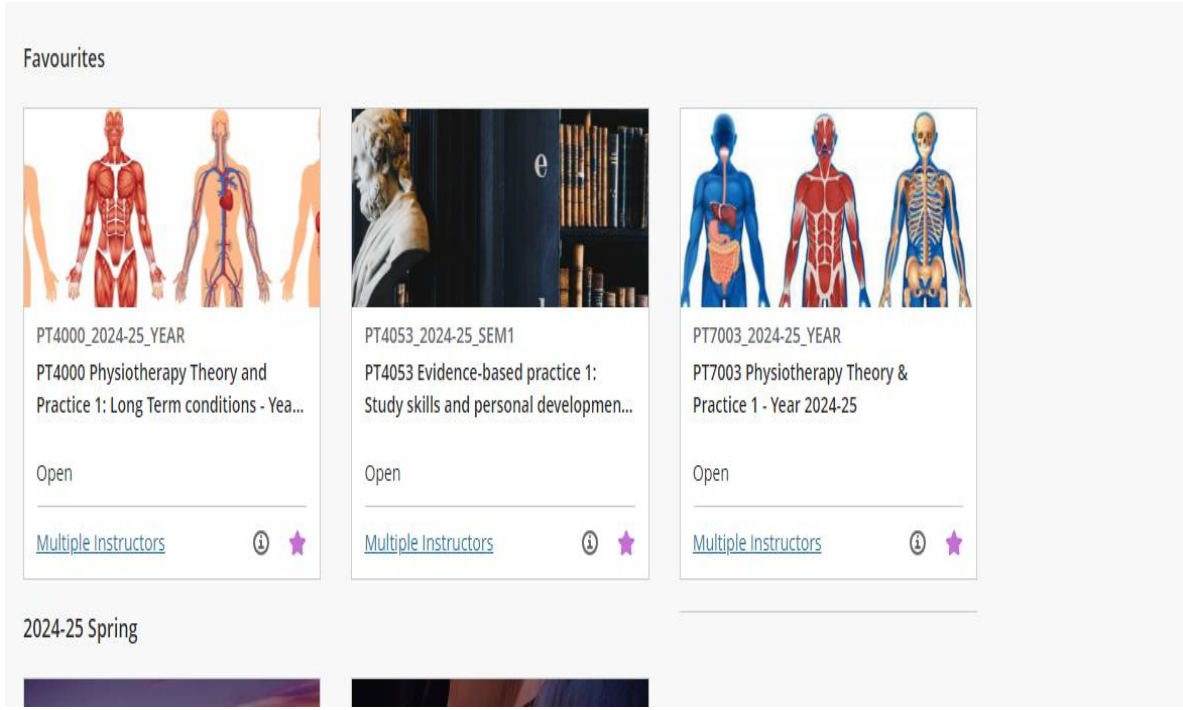

Student Weblearn Help

The Learning Technology Support site is a knowledge base of helpful articles and information about online learning technologies for students. Use the search feature or browse through the sections to view the how-to guides and information about Weblearn, online submission and more.

- Learning Technology Support
- View the student FAQs web page

If you can't find the help you need on our help pages, you can log a job through the IT self service portal and one of our analysts will get back to you.

FINAL ASSESSMENTS

Students Representitve

Student Reps (londonmetsu.org.uk)

The role has obligations including

- regularly checking emails, and attending Student Rep training, CCMs, and School-wide meetings.
- Check-in with your Student Rep on a regular basis, at least once a month, to ensure that they feel valued and supported in their role.
- Take efforts to make sure that your cohort are aware of who their Student Rep is, and how they can contact them.

- Contact me to nominate yourselves for the role of BSc course representative on w.abutaleb@londonmet.ac.uk, latest day is the 04/10/2024.

- The interested students to speak for 1 minute about why they want to be a Student Rep, and the class to vote either by online poll on Monday 07/10/2024. I will submit the nominated student form before 11/10/2024.
