Chartered Society of Physiotherapy

Common Placement Assessment Form

Level 4 / SCQF 8

September 2024

Level 4

Learner (student)	Name	Elvio Mendes
	University	London Metropolitan University
	Contact (E-mail & Phone)	elm0901@my.londonmet.ac.uk 07946709864
Practice Educator(s)	Name(s)	Freya Camille & Bodene Benade
	Contact (E-mail & Phone)	f.camille@nhs.net & bodene.benade@nhs.net
University Link Tutor	Name(s)	Walaa Abu-Taleb
	Contact (E-mail & Phone)	w.abutaleb@londonmet.ac.uk
Placement	Dates	From 30/01/2025 To 03/04/2025
	Organisation Name	Royal Free London NHS Foundation Trust
	Practice Site	Royal Free Hospital
	Speciality	Liver and Digestive Health
	Marking Scheme	(●) Graded ( ) Pass / Fail

Please select the pass/fail option if you are marking pass/fail and do not want to give a formative mark.

Important: only use Adobe Acrobat Reader (free) or Pro to edit this form. Other PDF editors may cause malfunctions or data loss.

Frequently Asked Questions 37

Frequently asked questions about marking a learning domain. 37

Chapter 1 Assessment Guidance overview.

Assessment Guidance Overview

Please ensure that you refer to the CPAF guidance documentation for detailed information to support your completion of this form.

The CPAF is made up of 4 key parts;

1. Learning Agreement
   The learner should prepare the learning agreement and complete this section following discussion and agreement with the practice educator. This should also be reviewed at midway and end of placement but is applicable on every day of placement.
2. Professional Behaviours and Responsibilities
   This section should be competed at midway and end of placement.
3. Learning Domains
   This section should be completed at midway and end of placement.
4. Feedback from Others

Learners are assessed on the following parts at both the midway and end of placement points: professional behaviours and responsibilities and learning domains. They MUST both be passed independently by the final assessment.

Cause for concern (appendix 1) should be completed, if there are concerns at any time in the placement that the learner may not pass the professional behaviours and/or learning domains. The relevant university tutors should also be informed immediately if this form has been completed.

Learning Agreement

The Learning Agreement is not formally marked. However, information recorded here can help evidence achievement of the learning domains. Please ensure this part is completed and discussed between learner and practice educator(s) at regular intervals. Learners should revisit this section frequently adding to it as the placement progresses to help learners to get the most out from their time in practice.

There are 3 parts to the learning agreement;

1. Factors that may impact on learning
2. SWOC Analysis (Strengths, Weaknesses, Opportunities, Challenges)
3. Personal Development Plan

Factors that may impact on learning *(optional)*

There is a space for the learner to share any information that may affect their learning on placement in any way. To encourage dialogue between learner and practice educator(s) and to raise awareness so, if needed, appropriate supportive steps are put in place.

Professional Behaviours and Responsibilities

This part assesses the fundamental professional qualities, competence and behaviour of the learner whilst on placement. They must demonstrate professionalism with adherence to local guidelines, policies and procedures, as well as the HCPC Guidance on Conduct and Ethics for Students (2016) and the CSP Code of Members' Professional Values and Behaviour (2019) and HCPC Standards of Proficiency (2023).

Marked as 'Pass/Fail' for ALL learners

The learner MUST pass this section by the end of the placement

Failure in 'Professional Behaviours and Responsibilities' will override 'Learning Domains' and cause the learner to fail the placement at any stage

The options for demonstrating the professional behaviour/responsibility are 'yes or no' with space for comments. If a learner fails to achieve an area of professionalism by the end of the placement, they will be awarded a 'no' and will result in failure of the placement.

Learning Domains

There are fundamental skills to physiotherapy these are referred to as the 'Themes of Practice'.

There are 10 learning domains within three themes of practice.

Themes of Practice	Learning Domains
Personal Development	Independent learning
	Seeking, reflecting on and responding to feedback
	Organisation and prioritisation
Interpersonal Skills	Communication
	Working with others
	Individuals, communities and populations
Decision Making and Implementation	Gathering and analysing information
	Evidence-based practice
	Reasoning and intervention
	Recording information

The assessment criteria for each of these domains is shaped to the learners' level of study.

This part is marked as either 'Pass/Fail' or 'Graded' dependent on university requirements (using the same assessment criteria)

The learner must pass all 10 learning domains by the end of the placement to pass the placement.

The learning domain indicates learner achievement by the END of the placement (eg. during the final week)

Marking criteria is provided.

Learners and practice educators are required to assess achievement of the learning domains at both the midway and end of placement assessment points and complete the comments section.

Written feedback at the midway and final assessment point.

Feedback from others

The feedback from others section is not being formally marked. However, information recorded here can help evidence achievement of the learning domains.

Chapter 2 CPAF

Learning Agreement – Factors affecting Learning

Factors which may affect on learning, to be completed by the learner

Factors could include (amongst others):

- Concerns about risk of discrimination linked to protected characteristics (age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership and pregnancy and maternity)
- Concerns regarding accessibility/access adjustments, please see CSP resources for support Welcoming and supporting disabled learners | The Chartered Society of Physiotherapy (csp.org.uk)
- Social or family circumstances such as living environment, caring responsibilities or travel issues
- Health or wellbeing issues relating to physical and/or mental health
- Financial issues such as travel costs or access
- Religious or cultural beliefs, values or practises
- Previous problems encountered during placements
- Previous experiences such as bereavement, personal or family health or wellbeing issues that may be relevant to how the learner experiences the placement setting

Box for learner to identify factors which may affect learning:

Please confirm that a locally agreed induction to the placement has been completed

	Name	Date
Practice Educator confirmation	Bodene Benade, Freya Camille	30/01/2025
Learner confirmation	Elvio Mendes	30/01/25

Learning Agreement: SWOC (Strengths, Weaknesses, Opportunities, Challenges) Analysis - Initial – to be completed by the learner

Strengths	Weaknesses
What do you do well? What do others see as your strengths? So far I've been taking notes about my encounters with patients in the clinical outpatient and inpatient setting. I've learnt more about the liver so far in the 2 days and feel confident performing an objective assessment with a patient in the outpatient clinic in my placement setting. I've taken notes on tips that I noticed my practice educator do for subjective and objective assessments such as asking for more information on a patient's condition such as COPD, to lead to a better subjective assessment.	What could you improve? What are you less confident about? I'm currently less confident on performing subjective and objective assessments in a ward inpatient setting as I believe I'm lacking the knowledge to know what the patient needs for an objective assessment. I could be more proactive and pragmatic by attempting to do more small bits of the subjective assessment or performing objective assessments during either the ward or outpatient setting.
Opportunities What opportunities are available to you? How can you turn your strengths into opportunities? Searching up conditions such as PSC, PBC, liver cirhhosis to ensure I understand the common patient conditions I can get involved or ask to do subjective and objective assessments in the outpatient clinic and the ward. I can ask for feedback on how I've performed and anything I could do better when performing subjective and objective assessments.	**Challenges** What challenges or hurdles may you meet along the way? The lack of my knowledge about the lungs which makes it a challenge to also learn while trying to understand assessments for cardiorespiratory situations. As liver and digestive health is a niche field which I have not received much teaching about the conditions or basic knowledge about the field, extra reading will need to be done to understand patient conditions to be able to perform subjective and objective assessments. Being a passive learner and not attempting to get involved while not interacting with the patients throughout the placement will lead to me not getting the best learning experience I can from the placement.
Date: 13/02/25	

SWOC (Strengths, Weaknesses, Opportunities, Challenges) Analysis - Review

Strengths	Weaknesses
What do you do well? What do others see as your strengths? After this placement I believe I can locate a patients presenting condition, history of presenting condition and past medical history within the cluster of notes avaliable while understanding vital signs. I'm a lot more confident performing subjective assessments with patients as I've done them muliple times and learnt from my past errors and followed feedback from my practice educators I've improved my ability to perform SOAP notes with less help with the analysis and plan.	What could you improve? What are you less confident about? My SOAP notes can be improved by ensuring the layout is clear, by ensuring my plan is specific to the patient's condition. In my recent soap not I put that the patient should do supported coughs every 1-2 hours, however, it should be performed when needed. I can improve my social histories by also asking about their function currently in their hospital admission.
Opportunities What opportunities are available to you? How can you turn your strengths into opportunities? As I'm more confident when performing subjective assessments, I could use that to decide how I would perform an objective assessment with a patient. Performing extensive social histories allows other people of the MDT to see more about the patient's social life, such as their living condition, transfers, and domestic and personal ADLs. Being able to locate a patient's presenting condition, history of presenting condition and past medical history with other information about the procedures they've had to understand the patient's admission history.	**Challenges** What challenges or hurdles may you meet along the way? There are still minor changes I can make to improve my SOAP notes, such as being slightly more descriptive about the events that took place and ensuring the structure is clear, making it easier for others to read. When performing social histories, I struggle to recall information from them, therefore, I write down prompts in my notebook to allow me to remember what happened during the social history, to allow me to write a coherent SOAP note Not having a system when reviewing patient notes, as patients tend to have an extensive amount of notes, therefore being able to prioritise which notes I should look at for the information I need is a crucial part of a patient assessment.
Date: 03/04/25	

Learning Agreement: Personal Development Plan to be completed by the learner

What are your individual goals for this placement? *What do YOU want to achieve? Use this information to inform the table below*

Learners Personal Learning Aim (This should be **S**pecific, **M**easurable, **A**chievable, **R**ealistic and include a **T**ime frame) *(Ask yourself 'what do I want to achieve? By when? How do I measure success?')*	**Anticipated resources required to achieve** *(Ask yourself 'what do I need to make this happen? Time, support, people etc')*	**Practice Educator Comments**	**Reflection on Achievement of Learning Aim** To be completed by the learner with support from the practice educator	
			Midway	**End of Placement**
To be able to perform a social history with a patient, I'll measure the success of it by reflecting on the questions I've asked and asking for feedback from my practice educator, its achievable as its one section of a subjective assessment and realistic as its building me to complete a full	To make this goal happen I will utilise the subjective assessment template given to me by my practice educator and write down potential questions to ask the patient prior to me seeing them.	Elvio has practiced performing a social history and his confidence and reasoning has improved. He is able to complete and document a social history	By ulitilising the template provided for the social history, I will use it adapt it to what I would like to know about the patient	I've understood the importance of performing a thorough social history of a patient as when looking at notes other MDT staff perform brief
To understand the value of reading vital signs such as potassium, sodium and platelet count and how it would affect my intervention if those levels were high, low, and normal. This goal is measurable by applying my researched knowledge about vital signs to patients and	To make this goal happen I'll need to access the patient notes to check their vital signs. I'll need do research on normal, low and high values for these vital signs	Elvio has shown improvement in his interpretation of vital signs and how they may effect a physiotherapy session	I'm able to locate the vitals signs and understanding them, I believe I can be better by also noting down and explaining why and how	I've understood the value of reading vital signs as it's representated as unsafe practice as some patients in the LDH are post-op

Learners Personal Learning Aim (This should be **S**pecific, **M**easurable, **A**chievable, **R**ealistic and include a **T**ime frame) ***(Ask yourself 'what do I want to achieve? By when? How do I measure success?')***	**Anticipated resources required to achieve** ***(Ask yourself 'what do I need to make this happen? Time, support, people etc')***	**Practice Educator Comments**	**Reflection on Achievement of Learning Aim** To be completed by the learner with support from the practice educator	
			Midway	**End of Placement**
To perform a full subjective assessment on a patient, this is achievable as I'll be interacting with patients and developing the skills needed to complete a subjective assessment as the placement progress. It's realistic	I'll need to understand why I'm asking specific questions to a patient, such as the location of pain, if they're able to walk and transfer from different surfaces. A template for a subjective assessment would be helpful as	Elvio is able to complete a subjective assessment with support from the practice educator. He continues to develop his documentation skills.	I'm able to perform a subjective assessment with the help of my practice educator but to improve I	Now I'm able to perform a subjective assessment with less help, before I would struggle with the analysis

Professional Behaviours and Responsibilities

The learner demonstrates professional qualities, competence and behaviours:		
This may include, but is not limited to compliance with; CSP Code of Members' Professional Values and Behaviour (2019) HCPC Guidance on Conduct and Ethics for Students (2016) Standards of Proficiency (2023), Physiotherapists | (hcpc-uk.org) Policies and procedures within the placement setting * Cause for concern (Appendix 1) should be completed, if there are concerns at any time in the placement that the learner may not pass the professional behaviours and/or learning domains. The relevant university tutors should also be informed immediately if this form has been completed*.		
Midway Assessment		
The learner;	Please Select	Comments
Is fit to practice safely and effectively; with an awareness of their limitations and scope of practice, honesty about their role and consideration of ethical and moral matters.	Yes	
Promotes and protects the interests of others; following policies on consent, respecting dignity and promoting equity	Yes	
Assesses risks accurately; taking appropriate steps to limit the harm of self and others	...	N/A at Midway
Reports reliably, informing their practice educator of any concerns of safety and putting the wellbeing of others first	...	N/A at Midway
Respects confidentiality, managing sensitive information and only using information for the purpose in which it is given	...	N/A at Midway
Complies with standards of dress, appearance and hygiene in relation to organisational policy	Yes	
Is punctual and has good time keeping	Yes	

Action Plan – If answering no to any of the above please seek support from HEI and fill out cause for concern form (Appendix 1)	
N/A	
Name of the Practice Educator	
Name of the Learner	

End of Placement Assessment		
The learner;	Please Select	Comments
Is fit to practice safely and effectively; with an awareness of their limitations and scope of practice, honesty about their role and consideration of ethical and moral matters.	Yes	Raised concerns with university regarding safety awareness (Neglected to check vitals prior to reviewing patient and unable to identify or seek support regarding contraindications) Concerns discussed with Elvio on week 7, action plan implemented
Promotes and protects the interests of others; following policies on consent, respecting dignity and promoting equity	Yes	
Assesses risks accurately; taking appropriate steps to limit the harm of self and others	Yes	Raised concerns with university regarding safety awareness (Neglected to check vitals prior to

Respects confidentiality; managing sensitive information and only using information for the purpose in which it is given	Yes	
Complies with standards of dress, appearance and hygiene in relation to organisational policy	Yes	
Is punctual and has good time keeping	Yes	

Practice Educators Comments
Examples of when these have/have not been followed should be stated specifically as well as advice provided to learner

Written feedback with action points to implement for the next 3 days of placement-
Gathering and analysing information-
From the beginning of your placement the objectives were clearly laid out for you and one of which is reading vital signs prior to reviewing the patient.
On day 7 of your placement you did not shown that you were able to review and interpret vital signs prior to reviewing the patient. From a safety perspective this is concerning – The criteria to pass this section in the CPAF highlights…

Learner Comments
Response to comments from Practice Educator(s). Please include verification that you are familiar with the necessary guidance/principles

I understand on week 7 I failed to achieve some requirements needed to me to pass on the placement, for instance, I failed to check vital signs which is a significant patient section to check when looking at patient notes. I understand why it's classified as unsafe because vital signs give an insight on how the patient's body is functioning, for instance if they have an infection or inflammation their C-reactive protien, white blood cell would be higher than normal. Other vitals such as haemoglobin being below 70 would impact how a PT or OT would mobilise a patient

Practice Educator Declaration *(to be completed at the final assessment)*

From what I have witnessed on this placement, I have no grounds for concern in relation to the learner's professional attitudes and behaviours. All necessary guidance, policies and procedures have been followed with no more than minimal prompting	Name: Bodene Benade, Freya Ca Dated: 03/04/2025
The learner has not met these expectations and further information will be provided to the learner and the HEI (see final outcome page)	Name: Dated:

Learning Domains Midway Assessment

* Cause for concern (Appendix 1) should be completed, if there are concerns at any time in the placement that the learner may not pass the professional behaviours and/or learning domains. The relevant university tutors should also be informed immediately if this form has been completed*.

Learning Domain Number	Descriptor **Link to Rubrics**	Midway Learner Self Evaluation	Midway Practice Educator Evaluation	Comments (practice educator and learner)
1	**Independent Learning** The learner engages in a personal development plan which includes identifying learning needs, identifying and using learning resources, and reflects on and actions their learning in practice.	Satisfactory (40-49%)	Satisfactory (40-49%)	Practice Educator: Elvio does show some initiative in researching unfamiliar topics but would benefit from more self-directed learning and reflection. Unable to assess Learner: I have started to do more relfections about my SOAP notes and subjective assessments. I need to start showing what research I've done to my practice educator
2	**Seeking Reflecting on and Responding to Feedback** The learner appropriately seeks and reflects on feedback received and modifies their personal and professional behaviour accordingly in response to the feedback.	Good (50-59%)	Good (50-59%)	Practice Educator: Elvio actively seeks feedback after sessions but needs further opportunity to reflect and act on feedback as has difficulty implementing this. Learner: I've began to reflect on my SOAP notes and subjective assessments and I've been trying to act on the feedback given
3	**Organisation and Prioritisation** The learner prioritises and manages workload in response to a variety of demands and acknowledges the impact of their actions and decisions.	Select...	Select...	Practice Educator: N/A Learner:

4	**Communication** The learner effectively uses and modifies a wide range of appropriate communication skills and styles (verbal, non-verbal, written and listening) to share and receive information. The learner professionally engages with digital information and technology as appropriate.	Good (50-59%)	Satisfactory (40-49%)	Practice Educator: Elvio is working on communicating with patients throughout a subjective and social history but requires more exposure to patients as at present he is very fixed in his approach and unable to adapt questions to meet Learner: So far I need to improve on my communication but overall I believe I'm confident performing a subjective assessment with a new patient
5	**Working with others** The learner understands and respects the role and scope of themselves and others. The learner engages with others, builds effective and collaborative relationships, and works as part of a team. The learner identifies and applies leadership skills in the practice environment.	Good (50-59%)	Good (50-59%)	Practice Educator: Elvio works well with others and shows respect and professionalism but requires more opportunity to develop collaborative working and understanding of roles within the MDT. Learner: I would like to work with OTs and Dieticians and see how they deal with patients differently from Physios
6	**Individuals, communities and populations** The learner recognises the impact of culture, equality and diversity on practice and practises in an anti-discriminatory and inclusive manner. The learner identifies and understands the impact of health inequalities promoting health and wellbeing of themselves and others.	Select...	Select...	Practice Educator:N/A Learner:

7	**Gathering and Analysing Information** The learner extracts relevant information from a range of sources and analyses gathered information, drawing reasoned conclusions to identify key issues. The learner develops goals and/or objectives to address identified issues.	Good (50-59%)	Satisfactory (40-49%)	Practice Educator: Not yet achieved at half way due to time constraints of the placement, will have further opportunities to develop this. Learner:
8	**Evidence-Based Practice** The learner sources research or evidence to inform effective physiotherapy practice, evaluates and applies research or evidence in practice. The learner reflects on the application of evidence-based practice.	Select...	Select...	Practice Educator: N/A Learner:
9	**Reasoning and Intervention/Activities** The learner reasons appropriate interventions/activities to the needs of the setting and/or person and applies these safely and/or appropriately. The learner monitors and reviews the ongoing effectiveness of interventions/activities and modifies if appropriate.	Select...	Select...	Practice Educator: N/A Learner:

10	**Recording Information** The learner identifies, structures and records relevant information, using an appropriate range of approaches and formats. The learner modifies the approach and/or technique to record information as appropriate to the situation.	Good (50-59%)	Satisfactory (40-49%)	Practice Educator: ble to complete first few SOAP notes, prompting required however took feedback well and actioned it. Learner: By taking in the feedback from my Practice Educators I will be able to perform SOAP notes in a coherent format.

Educator feedback/action plan – Midway Please include further feedback and feedforward comments Elvio has demonstrated enthusiasm and motivation to learn as much as possible from this placement. he is always respectful and professional. Elvio would benefit from more time to develop his confidence with communication and note-taking skills as well as gathering and analysing information. We look forward to Elvio's progress in the coming weeks
Learner reflection on feedback and action plan for remainder of placement I need to improve my ability to record information, gathering and analysing information so I can perform SOAP notes independently. I can do this by getting a template and adjusting it to my own way and continuing with that. I'm doing good in two of the learning domains, seeking feedback and working with others which I will try to maintain and improve on. My action plan is to keep on seeking feedback for my SOAP notes until I get it right before the placement finishes.

Please note - all three levels of study are included in the rubric to illustrate expected level of achievement and progression between levels.

Please ensure you use only the descriptors in the row outlined.

If you are unsure of which level descriptors you should use or need any advice regarding the rubric or assigning marks – please contact your University Link Tutor.

	Outstanding (90-100%)	Exceptional (80-89%)	Excellent (70-79%)	Very Good (60-69%)	Good (50-59%)	Satisfactory (40-49%)	Fail (30-39%)	Fail (0-29%)
Level 4 / SCQF Level 8 Back to LDs	Consistently and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently able to achieve this domain with minimal facilitation from others.	Limited support or prompts required to facilitate achievement in this domain.	Minimal support or infrequent prompts required to facilitate achievement in this domain.	Moderate support and prompts required to facilitate achievement in this domain.	Predominantly dependent on others to facilitate achievement in this domain.	Despite consistent, significant and continued prompting and support the learner is unable to achieve in this domain.	Learner makes limited or no attempt to engage in this learning domain.
	Outstanding (90-100%)	Exceptional (80-89%)	Excellent (70-79%)	Very Good (60-69%)	Good (50-59%)	Satisfactory (40-49%)	Fail (30-39%)	Fail (0-29%)
Level 5 / SCQF Level 9	Consistently and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently able to achieve this domain with minimal input from others.	Infrequently requires minimal support or prompts to facilitate achievement in this domain.	Frequently requires minimal support or prompts to facilitate achievement in this domain.	Moderate support or some prompts required to facilitate achievement in this domain.	Requires significant ongoing prompts and support from others to facilitate achievement in this domain.	Despite continued prompting and support the learner is unable to achieve in this domain.	Despite consistent significant and continued prompting and support unable to achieve in this domain. Or learner makes limited or no attempt to engage in this learning domain.

	Outstanding (90-100%)	Exceptional (80-89%)	Excellent (70-79%)	Very Good (60-69%)	Good (50-59%)	Satisfactory (40-49%)	Fail (30-39%)	Fail (0-29%)
Level 6 / SCQF Level 10	Consistently, critically and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently, critically and independently able to achieve this domain.	Consistently and critically able to achieve this domain with minimal input from others.	Infrequently requires limited support or prompts to facilitate achievement in this domain , with some elements of criticality.	Frequently, requires minimal support or occasional prompts to facilitate achievement in this domain, with some elements of criticality.	Occasionally requires moderate support from others to facilitate achievement in this domain. Overall is safe to practice.	Despite consistent, significant and continued prompting and support is unable to achieve this domain. Or Learner makes limited or no attempt to engage in this learning domain.	Despite significant and continued prompting unable to achieve in this domain.

Learning Domains Final Assessment

Learning Domain Number	Descriptor **Link to Rubrics**	Final Learner Self Evaluation	Final Practice Educator Evaluation	Comments (practice educator and learner)
1	**Independent Learning** The learner engages in a personal development plan which includes identifying learning needs, identifying and using learning resources, and reflects on and actions their learning in practice.	Excellent (70-79%)	Excellent (70-79%)	Practice Educator: Elvio demonstrates that he is able to research topics that are new or unknown to him. He requires consistent prompting to identify and reflect on Learner: I've been fairly consistent (missing out on weeks 1,with my reflections and organised what my reflections with my research in weeks on Microsoft OneNote, however, I did not email my
2	**Seeking Reflecting on and Responding to Feedback** The learner appropriately seeks and reflects on feedback received and modifies their personal and professional behaviour accordingly in response to the feedback.	Good (50-59%)	Very Good (60-69%)	Practice Educator: Elvio can ask for feedback appropriately however has not demonstrated the ability to always implement the feedback but continues to develop this skill. Elvio has Learner: I seek for feedback when I've performed a subjective and SOAP note but there have been times when I've not understood the feedback properly and have struggled to implement it
3	**Organisation and Prioritisation** The learner prioritises and manages workload in response to a variety of demands and acknowledges the impact of their actions and decisions.	Select...	Select...	Practice Educator:N/A Learner:

4	**Communication** The learner effectively uses and modifies a wide range of appropriate communication skills and styles (verbal, non-verbal, written and listening) to share and receive information. The learner professionally engages with digital information and technology as appropriate.	Good (50-59%)	Good (50-59%)	Practice Educator: Elvio is respectful and kind, building rapport with patients. Concerns raised at week 7 regarding communication style and appropriateness of questions, action plan put in place for Elvio to Learner: I believe my communication with patients can be improved as sometimes I can ask question that lack clinical reasoning such as asking a patient if they have swalloing difficulties when they haven't eaten in a few days. Therefore,
5	**Working with others** The learner understands and respects the role and scope of themselves and others. The learner engages with others, builds effective and collaborative relationships, and works as part of a team. The learner identifies and applies leadership skills in the practice environment.	Very Good (60-69%)	Very Good (60-69%)	Practice Educator: Elvio works well with others and shows respect and professionalism throughout. Elvio has had experience working with different members of the MDT e,g OT and TA. Learner: I would've liked to worked with Dieticians, however, my time working with OTs and TAs were valubale experiences as I've learnt different approches to performing subjective and objective assessments.
6	**Individuals, communities and populations** The learner recognises the impact of culture, equality and diversity on practice and practises in an anti-discriminatory and inclusive manner. The learner identifies and understands the impact of health inequalities promoting health and wellbeing of themselves and others.	Select...	Select...	Practice Educator:N/A Learner:

7	**Gathering and Analysing Information** The learner extracts relevant information from a range of sources and analyses gathered information, drawing reasoned conclusions to identify key issues. The learner develops goals and/or objectives to address identified issues.	Good (50-59%)	Good (50-59%)	Practice Educator: Raised concerns with university regarding safety awareness (Neglected to check vitals prior to reviewing patient and unable to identify or seek support regarding contraindications) Learner: I understand the importance of gathering accurate information regarding the patients social history and analysing information such as patient vital signs
8	**Evidence-Based Practice** The learner sources research or evidence to inform effective physiotherapy practice, evaluates and applies research or evidence in practice. The learner reflects on the application of evidence-based practice.	Select...	Select...	Practice Educator:N/A Learner:
9	**Reasoning and Intervention/Activities** The learner reasons appropriate interventions/activities to the needs of the setting and/or person and applies these safely and/or appropriately. The learner monitors and reviews the ongoing effectiveness of interventions/activities and modifies if appropriate.	Select...	Select...	Practice Educator:N/A Learner:

10	**Recording Information** The learner identifies, structures and records relevant information, using an appropriate range of approaches and formats. The learner modifies the approach and/or technique to record information as appropriate to the situation.	Good (50-59%)	Good (50-59%)	Practice Educator: Elvio is able to record information with moderate support but has identified recalling information as a learning need. Elvio does utilise a note book to recall information and we Learner: Using my notebook has allowed me to record information from the subjective assessment easily and allowed me to record objective asesments right after seeing the patient. I'd like to be able to not use it however. I would

Educator feedback/action plan – Final Please include further feedback and feedforward comments Elvio has demonstrated enthusiasm and motivation to learn as much as possible from this placement. He is always respectful and professional. Elvio would benefit from more time to develop his confidence with communication and note-taking skills as well as gathering and analysing information. Raised concerns with university regarding safety awareness (Neglected to check vitals prior to reviewing patient and unable to identify or seek support regarding contraindications)
Learner reflection on feedback and action plan for remainder of placement 13 March 2025 15:53 I performed 2 subjective assessments today, I still have to improve on my empathy to the patient if they get emotional and use layman ’ s terms when asking a question. I also need to improve on how I ask the questions as for some patients the questions aren ’ t really applicable to them such as washing and dressing because the patient may able to functional or was already functional before admission, therefore I need to use

Please note - all three levels of study are included in the rubric to illustrate expected level of achievement and progression between levels.

Please ensure you use only the descriptors in the row outlined.

If you are unsure of which level descriptors you should use or need any advice regarding the rubric or assigning marks – please contact your University Link Tutor.

	Outstanding (90-100%)	Exceptional (80-89%)	Excellent (70-79%)	Very Good (60-69%)	Good (50-59%)	Satisfactory (40-49%)	Fail (30-39%)	Fail (0-29%)
Level 4 / SCQF Level 8 Back to LDs	Consistently and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently able to achieve this domain with minimal facilitation from others.	Limited support or prompts required to facilitate achievement in this domain.	Minimal support or infrequent prompts required to facilitate achievement in this domain.	Moderate support and prompts required to facilitate achievement in this domain.	Predominantly dependent on others to facilitate achievement in this domain.	Despite consistent significant and continued prompting and support the learner is unable to achieve in this domain.	Learner makes limited or no attempt to engage in this learning domain.
	Outstanding (90-100%)	Exceptional (80-89%)	Excellent (70-79%)	Very Good (60-69%)	Good (50-59%)	Satisfactory (40-49%)	Fail (30-39%)	Fail (0-29%)
Level 5 / SCQF Level 9	Consistently and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently able to achieve this domain with minimal input from others.	Infrequently requires minimal support or prompts to facilitate achievement in this domain.	Frequently requires minimal support or prompts to facilitate achievement in this domain.	Moderate support or some prompts required to facilitate achievement in this domain.	Requires significant ongoing prompts and support from others to facilitate achievement in this domain.	Despite continued prompting and support the learner is unable to achieve in this domain.	Despite consistent significant and continued prompting and support unable to achieve in this domain. Or learner makes limited or no attempt to engage in this learning domain.

	Outstanding (90-100%)	Exceptional (80-89%)	Excellent (70-79%)	Very Good (60-69%)	Good (50-59%)	Satisfactory (40-49%)	Fail (30-39%)	Fail (0-29%)
Level 6 / SCQF Level 10	Consistently, critically and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently, critically and independently able to achieve this domain.	Consistently and critically able to achieve this domain with minimal input from others.	Infrequently requires limited support or prompts to facilitate achievement in this domain, with some elements of criticality.	Frequently, requires minimal support or occasional prompts to facilitate achievement in this domain, with some elements of criticality.	Occasionally requires moderate support from others to facilitate achievement in this domain. Overall is safe to practice.	Despite consistent, significant and continued prompting and support is unable to achieve this domain. Predominantly dependent on others to facilitate achievement in this domain.	Despite significant and continued prompting unable to achieve in this domain. Or Learner makes limited or no attempt to engage in this learning domain.

Feedback from Others

Throughout the course of the placement the learner will likely be working alongside others possibly including service users, members of the MDT and those in non-clinical roles. Feedback from such people is extremely valuable.

Although this part is not compulsory, we strongly encourage active use throughout the practice placement.

Please use the space below to provide feedback to the learner, this may be anonymous.

Record of Placement Hours

	Number of hours	Comments, Dates of absence, Reasons for absence (if appropriate)		Number of hours	Comments, Dates of absence, Reasons for absence (if appropriate)
Week 1	7 :30		Week 9	7 :30	
Week 2	7 :30		Week 10	5 :30	Elvio requested permission to leave at 2pm
Week 3	7 :30		Week 11	:	
Week 4	7 :30		Week 12	:	
Week 5	7 :30		Week 13	:	
Week 6	7 :20		Week 14	:	
Week 7	7 :30		Week 15	:	
Week 8	7 :25		Week 16	:	

Total Hours completed = 72 hours 45 mins	or	72.8 hours

Practice Educator	Bodene Benade	3/04/2025
Learner	Elvio Mendes	03/04/2025

Chapter 3 Appendices

Appendix 1: Record of Cause for Concern

Appendix 2: Reflective Practice Templates

Appendix 3: Additional SWOC Analysis

Appendix 4: Glossary of Terms

Appendix 5: Frequently Asked Questions

Appendix 1: Record of Cause for Concern

Please complete this form if there are concerns at any time in the placement that the student may not pass the professional behaviours and/or learning domains. The relevant university tutors should also be informed immediately if this form has been completed. If the outcome is a FAIL of the placement, the University Link Tutor must be contacted to support the learner and the practice educator.

Cause for concern	Action taken	Action plan and outcome	Name	date
			Practice Educator	
			Learner	
			Link Tutor	

Appendix 2: Reflective Practice Templates

This section includes two templates to support you reflecting on your practice whilst on placement. Reflection may take different forms and there are no right or wrong ways to do it. You may choose to write them down using the templates attached, record them on your phone or speak them out loud. What is important is that you engage in reflective practice, asking yourself the questions highlighted amongst others. This adds layers to your learning, deepens your understanding and can support your achievement within the learning domains.

The CSP ePortfolio is an online digital portfolio of your work, reflections and achievement. It contains lots of different Continual Professional Development (CPD) templates and allows you to share content with others, including your practice educator(s). This tool is available to members of the CSP. Please visit the CSP ePortfolio pages of the web site to find out more.

Learning from doing[1]

Describe briefly a recent significant experience in your professional life	
What did you do…	and why?
What went well?…	and what could have been better?

What would you do differently, if anything, if faced with a similar situation again?	How did you feel during the experience?
Describe what you learnt from this experience (learning outcomes)	
What is your action plan from this incident?	
Date:	
Review Date:	
I can use this evidence for (select as appropriate) ☐ Appraisal ☐ HCPC ☐ CPD ☐ KSF ☐ Other Please specify	

What? So what? Now what?[2]

What? (This is the description & self-awareness level. All questions start with the word what e.g. What happened? What did I do? What was I trying to achieve? What was good/bad about the situation?)
So what? (This is the level of analysis and evaluation. All questions start with the phrase so what? e.g. So what is the importance of this? So what more do I need to know about this? So what have I learnt about this?)

Now what? (This is the level of synthesis. All questions start with the phrase now what? e.g. now what could/should I do? Now what do I need to do? Now what might be the consequences of this action?)
Date:
Review Date:
I can use this evidence for (select as appropriate) ☐ Appraisal ☐ HCPC ☐ CPD ☐ KSF ☐ Other

Appendix 3: Additional SWOC Analysis

Strengths What do you do well? What do others see as your strengths?	Weaknesses What could you improve? What are you less confident about?
Opportunities What opportunities are available to you? How can you turn your strengths into opportunities?	Challenges What challenges or hurdles may you meet along the way?
Date:	

Appendix 4: Glossary of Terms

Term	Description
Critically/criticality	Critical thinking is a process used to think about and evaluate information then reach a conclusion. In this context the word critical is not negative. It means that you should not automatically accept that what you are reading is valid, true, applicable or correct. Instead, you should gather the evidence, acknowledge your own values and beliefs, analyse all aspects and reach your own conclusion
Frequency	Consistently: used to describe a situation where the learner meets the requirements of the criteria >90% of the time. Should be measured over a defined period of performance preceding the mid-way/final assessment and not over the duration of placement Most/ frequently: >60% but <90% of the time Some/ infrequently: >30% but <60% of the time Occasional/minimal: used to describe a situation where the learner meets the requirements of the criteria <30% of the time
Independent	Capable of acting for oneself or on one's own (proportionate with level of study)
Leadership	Ability to lead, demonstrates leadership qualities e.g. focus on self, working with others or improving healthcare
Prompting	Used to describe a situation where the practice educator provides input to the learner by the use of a key word, indirect or open questioning to facilitate learning
Reflective Practice	The process of reviewing an episode of practice to describe, analyse, evaluate and inform professional learning. New learning modifies previous perceptions, assumptions and understanding and the application of this learning to practice influences interventions and outcomes
Support	Used to describe a situation where the practice educator provides input to the learner by the use of explanations, guidance and direction to facilitate learning

Appendix 5: Frequently Asked Questions

Q. I have concerns about a learner's performance, what should I do?

A. If there are concerns at any time in the placement that the learner may not pass the professional behaviours and/or learning domains, the relevant university tutors should be informed and the cause for concern form filled in (appendix 1). If there is any unsafe practice and/or unprofessional behaviour this should be discussed with the learner at the time of the incident. This must then be documented within both 'Professional Behaviours and Responsibilities' and the 'Cause for Concern' section located in Appendix 1 and must be flagged with the learner's university link tutor at the earliest time possible.

An action plan must be clearly documented after any cause for concern as well as during the midway assessment in order to maximise the learner's ability to achieve an acceptable standard of practice.

Please refer to the relevant university processes for further information regarding poor performance.

Frequently asked questions about marking a learning domain.

Q. What is required to pass a learning domain?

A. Using the assessment criteria, practice educator(s) are required to make a professional judgement about the learner's level of ability. Practice educators and learners should select the appropriate ability achievement at both the midway and final assessment points.

As there is variation in what constitutes a pass mark between universities (eg. At some it is 40% and others it is 50%), please check with your local university to ensure that you are aware of their Pass/Fail threshold.

Q. When is written feedback provided?

A. Please provide comments at midway point and final assessment. At the midway point, please complete the 'action plan' to allow any steps to be put in place within the second half of the placement.

Q. What if a learner is awarded a 'fail' mark at the midway assessment?

A. The learning domains indicate learner achievement by the end of the placement and they may not all be met by the midway point (either via opportunity or performance). If this is the case however, practice educator(s) and learner should work together to ensure the action plan for the second half of placement clearly details the steps that will be put in place to support achievement. If you feel that a learner is at risk of failing this whole section by the end of placement point, this must be flagged with the university link tutor at the earliest possible opportunity.

Q. What if I feel the learning domain is not achievable in my placement setting?

A. The learning domains are applicable in a diverse range of placement settings; in person and remote as well as non-patient facing areas of practice. For examples of how they may be demonstrated in different areas with different models of supervision, please refer to the CPAF Guidance Documents. Please seek guidance from the HEI if you deem any of the domains unachievable in your practice environment.

Q. Should practice educators provide a specific % or grade boundary for each learning domain?

A. Please seek university guidance regarding this.

Q. How is a final award calculated?

A. For the end of placement assessment, the practice educator(s) will award the appropriate percentage/grade boundary for each learning domain. The final numerical mark should be an overall mark that represents the learner's performance on placement.

Q. What should I do if I face discrimination on placement?

A. The CSP promotes anti-discriminatory practice and does not tolerate discrimination of any kind towards any individual

Research and student lived experience tells us that some learners experience unacceptable discrimination whilst on placement from both staff and patients. The CSP urge staff and learners to report and challenge discriminatory behaviour to the workplace management and the university link tutor where matters should be addressed in line with local policy and procedures. Those experiencing discrimination are encouraged to access available support networks including; Placement Tutors, University pastoral support, NUS student officers, workplace support offered by your placement provider, Student Reps, CSP Diversity Networks, family and friends.

Q. What factors that might affect my learning should I disclose to my practice educator?

A. Factors could include (amongst others):

- Concerns about risk of discrimination linked to protected characteristics (age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership and pregnancy and maternity)
- Concerns regarding accessibility/access adjustments
- Social or family circumstances such as living environment, caring responsibilities or travel issues
- Health or wellbeing issues relating to physical and/or mental health
- Financial issues such as travel costs or access
- Religious or cultural beliefs, values or practises
- Previous problems encountered during placements

- Previous experiences such as bereavement, personal or family health or wellbeing issues that may be relevant to how the learner experiences the placement setting
- Please see:
  Welcoming and supporting disabled learners | The Chartered Society of Physiotherapy (csp.org.uk)

Q: What if I do not have Adobe Acrobat Reader?

A: You can easily download and install it by following these steps:

- Open your web browser and go to the official Adobe website. The direct link to the download page is Adobe Acrobat Reader Download.
- Click the “Download Acrobat Reader” button. This will download the installer file to your computer.
- Follow the on-screen instructions to complete the installation. This typically involves agreeing to the terms and conditions and selecting the installation location (default is usually fine).
