Frequently asked questions about marking a learning domain. 39

Chapter 1 Assessment Guidance overview.

Assessment Guidance Overview

Please ensure that you refer to the CPAF guidance documentation for detailed information to support your completion of this form.

The CPAF is made up of 4 key parts;

1. Learning Agreement
   The learner should prepare the learning agreement and complete this section following discussion and agreement with the practice educator. This should also be reviewed at midway and end of placement but is applicable on every day of placement.
2. Professional Behaviours and Responsibilities
   This section should be competed at midway and end of placement.
3. Learning Domains
   This section should be completed at midway and end of placement.
4. Feedback from Others

Learners are assessed on the following parts at both the midway and end of placement points: professional behaviours and responsibilities and learning domains. They MUST both be passed independently by the final assessment.

Cause for concern (appendix 1) should be completed, if there are concerns at any time in the placement that the learner may not pass the professional behaviours and/or learning domains. The relevant university tutors should also be informed immediately if this form has been completed.

Learning Agreement

The Learning Agreement is not formally marked. However, information recorded here can help evidence achievement of the learning domains. Please ensure this part is completed and discussed between learner and practice educator(s) at regular intervals. Learners should revisit this section frequently adding to it as the placement progresses to help learners to get the most out from their time in practice.

There are 3 parts to the learning agreement;

1. Factors that may impact on learning
2. SWOC Analysis (Strengths, Weaknesses, Opportunities, Challenges)
3. Personal Development Plan

Factors that may impact on learning *(optional)*

There is a space for the learner to share any information that may affect their learning on placement in any way. To encourage dialogue between learner and practice educator(s) and to raise awareness so, if needed, appropriate supportive steps are put in place.

Professional Behaviours and Responsibilities

This part assesses the fundamental professional qualities, competence and behaviour of the learner whilst on placement. They must demonstrate professionalism with adherence to local guidelines, policies and procedures, as well as the HCPC Guidance on Conduct and Ethics for Students (2016) and the CSP Code of Members' Professional Values and Behaviour (2019) and HCPC Standards of Proficiency (2023).

Marked as 'Pass/Fail' for ALL learners

The learner MUST pass this section by the end of the placement

Failure in 'Professional Behaviours and Responsibilities' will override 'Learning Domains' and cause the learner to fail the placement at any stage

The options for demonstrating the professional behaviour/responsibility are 'yes or no' with space for comments. If a learner fails to achieve an area of professionalism by the end of the placement, they will be awarded a 'no' and will result in failure of the placement.

Learning Domains

There are fundamental skills to physiotherapy these are referred to as the 'Themes of Practice'.

There are 10 learning domains within three themes of practice.

Themes of Practice	Learning Domains
Personal Development	Independent learning
	Seeking, reflecting on and responding to feedback
	Organisation and prioritisation
Interpersonal Skills	Communication
	Working with others
	Individuals, communities and populations
Decision Making and Implementation	Gathering and analysing information
	Evidence-based practice
	Reasoning and intervention
	Recording information

The assessment criteria for each of these domains is shaped to the learners' level of study.

This part is marked as either 'Pass/Fail' or 'Graded' dependent on university requirements (using the same assessment criteria)

The learner must pass all 10 learning domains by the end of the placement to pass the placement.

The learning domain indicates learner achievement by the END of the placement (eg. during the final week)

Marking criteria is provided.

Learners and practice educators are required to assess achievement of the learning domains at both the midway and end of placement assessment points and complete the comments section.

Written feedback at the midway and final assessment point.

Feedback from others

The feedback from others section is not being formally marked. However, information recorded here can help evidence achievement of the learning domains.

Chapter 2 CPAF

Learning Agreement – Factors affecting Learning

Factors which may affect on learning, to be completed by the learner

Factors could include (amongst others):

- Concerns about risk of discrimination linked to protected characteristics (age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership and pregnancy and maternity)
- Concerns regarding accessibility/access adjustments, please see CSP resources for support Welcoming and supporting disabled learners | The Chartered Society of Physiotherapy (csp.org.uk)
- Social or family circumstances such as living environment, caring responsibilities or travel issues
- Health or wellbeing issues relating to physical and/or mental health
- Financial issues such as travel costs or access
- Religious or cultural beliefs, values or practises
- Previous problems encountered during placements
- Previous experiences such as bereavement, personal or family health or wellbeing issues that may be relevant to how the learner experiences the placement setting

Box for learner to identify factors which may affect learning:

Please confirm that a locally agreed induction to the placement has been completed

	Name	Date

Learner confirmation		

Learning Agreement: SWOC (Strengths, Weaknesses, Opportunities, Challenges) Analysis - Initial – to be completed by the learner

Strengths	Weaknesses
What do you do well? What do others see as your strengths? I feel confident completing subjective assessments and I'm able to gather information to ask relevant questions. I have a good understanding of musculoskeletal conditions and joint pain from the lectures which allows me to explain information in a clear manner. I'm confident communicating with patients and can adapt my communication style to be clear, professional and supportive.	What could you improve? What are you less confident about? Sometimes I lack confidence when working in unfamiliar environments for instance, outside the traditional clinical settings. I can find it challenging to manage my time effectively when balancing multiple tasks or deadlines. I'm less confident in promoting events or making contact with organisations. I find designing leaflets and presentations challenging sometimes when trying to balance the written content, visuals and layout.
Opportunities What opportunities are available to you? How can you turn your strengths into opportunities? I have the opportunity to gain experience outside the NHS and understand how physiotherapy can contribute to public health and community settings. This placement provides the chance to develop skills in health event promotion, patient education and how to deliver an event. I will be able to improve my ability to network with community centres, health professionals and other organisations.	**Challenges** What challenges or hurdles may you meet along the way? Community interactions in this new environment differs from the hospital setting of my previous placement. Encouraging attendance for events may be difficult if responses are limited It may be challenging to find the right target audience for community events
Date:	

SWOC (Strengths, Weaknesses, Opportunities, Challenges) Analysis - Review

Strengths	Weaknesses
What do you do well? What do others see as your strengths? I'm more confident in communicating with a wide range of people such as community members, healthcare staff and individuals living with chronic pain. I have strengthened my ability to have conversations with patients and listen to their experiences to support patient centred care. I was able to adapt my note taking and information gathering skills to a community setting. I'm more confident in delivering an interactive presentation. My ability to explain joint pain and self-management strategies has improved and I'm comfortable promoting health events and speaking about the effects of physiotherapy related to joint pain	What could you improve? What are you less confident about? My time management still needs improving when managing with multiple tasks with deadlines as trying to balance all the deadlines can be difficult to do. I realise that I can be more proactive in my outreaching attempts when the first email leads to no response and sending a follow up email.
Opportunities What opportunities are available to you? How can you turn your strengths into opportunities? I gained exposure to community based physiotherapy roles such as the exercise class for people suffering from multiple sclerosis in Hornsey Vale Community Centre. Through networking, I was able to gain a volunteering opportunity to participate in the exercise group in Hornsey Vale Community Centre to assist physiotherapists in the group. I'm now more encouraged to seek community, public health and health promotion roles in the future using communication and presentation skills. The opportunity to improve my presenting and leaflet creation skills and use the feedback for any future presentations.	**Challenges** What challenges or hurdles may you meet along the way? I found managing my motivation challenging at times when my emails to organisations would lead to no response. Trying to recruit people to join the event was a challenge due to promoting the event late. Trying to attend extra events and online webinars was a challenge due to my other commitments and the timing of the events would clash with my commitments.
Date:	

Learning Agreement: Personal Development Plan to be completed by the learner

What are your individual goals for this placement? *What do YOU want to achieve? Use this information to inform the table below*

To be able to promote and deliver a health event

Learners Personal Learning Aim (This should be **S**pecific, **M**easurable, **A**chievable, **R**ealistic and include a **T**ime frame) *(Ask yourself 'what do I want to achieve? By when? How do I measure success?')*	**Anticipated resources required to achieve** *(Ask yourself 'what do I need to make this happen? Time, support, people etc')*	**Practice Educator Comments**	**Reflection on Achievement of Learning Aim** To be completed by the learner with support from the practice educator	
			Midway	**End of Placement**
To deliver a health event presentation focused on joint pain and self-management to an audience by preparing and delivering a presentation with interactive elements and using research and placement guidance to develop communication and health promotion skills in a community	Time for preparation and practising the presentation. Support and feedback from practice educators. Example presentations to use for inspiration.	At mid-placement, Elvio has engaged very well with his personal learning aim of promoting and delivering a community health event. He has been proactive in contributing to planning, researching relevant content, and supporting preparation activities. Elvio has		By the end of the placement, Elvio has successfully achieved his personal learning aim. He played an active role in the preparation
To create a strategy to promote the health event and to design a leaflet and distribute it to at least 5 community venues. I'll use Canva to design a simple yet eye catching. This will promote our event and support the community engagement aspect and public health awareness aspect of physiotherapy. The Leaflet	Time for planning and designing the leaflet. Example leaflets to use an example.	Elvio has engaged very well with his personal learning aim of creating and delivering a community health education event. He demonstrated a proactive and organised approach throughout the planning, promotion, and delivery stages. Elvio made		By the end of the placement, Elvio reflected that leading the planning and delivery of the health event significantly increased his

Learners Personal Learning Aim (This should be **S**pecific, **M**easurable, **A**chievable, **R**ealistic and include a **T**ime frame) ***(Ask yourself 'what do I want to achieve? By when? How do I measure success?')***	**Anticipated resources required to achieve** ***(Ask yourself 'what do I need to make this happen? Time, support, people etc')***	**Practice Educator Comments**	**Reflection on Achievement of Learning Aim** To be completed by the learner with support from the practice educator	
			Midway	**End of Placement**
To increase confidence when speaking to community members and staff about the event by engaging in conversations trying to promote the event in at least 10 different venues. This will enhance my professional communication and networking	Time for outreach and visit different community venues Support and feedback from my practice educators	Elvio has showed confidence promoting the event both online and in person, adapting his communication appropriately for different audiences. This approach reflects strong development in health promotion.		By the end of the placement, Elvio demonstrated excellent confidence when engaging with
Improve my ability to design engaging slides and leaflets. I can achieve this my producing a presentation and leaflet that balances the amount of text and images. I will use templates provided by my practice educators and their feedback	Access to design templates and examples. Feedback from practice educators.	Elvio successfully achieved this learning aim by producing clear, well-structured presentation slides and a leaflet that demonstrated an effective balance between text and visual content. He made good use of		

Professional Behaviours and Responsibilities

The learner demonstrates professional qualities, competence and behaviours:		
This may include, but is not limited to compliance with; CSP Code of Members' Professional Values and Behaviour (2019) HCPC Guidance on Conduct and Ethics for Students (2016) Standards of Proficiency (2023), Physiotherapists | (hcpc-uk.org) Policies and procedures within the placement setting * Cause for concern (Appendix 1) should be completed, if there are concerns at any time in the placement that the learner may not pass the professional behaviours and/or learning domains. The relevant university tutors should also be informed immediately if this form has been completed*.		
Midway Assessment		
The learner;	Please Select	Comments
Is fit to practice safely and effectively; with an awareness of their limitations and scope of practice, honesty about their role and consideration of ethical and moral matters.	Yes	
Promotes and protects the interests of others; following policies on consent, respecting dignity and promoting equity	Yes	
Assesses risks accurately; taking appropriate steps to limit the harm of self and others	Yes	
Reports reliably, informing their practice educator of any concerns of safety and putting the wellbeing of others first	Yes	
Respects confidentiality, managing sensitive information and only using information for the purpose in which it is given	Yes	
Complies with standards of dress, appearance and hygiene in relation to organisational policy	Yes	
Is punctual and has good time keeping	Yes	

Action Plan – If answering no to any of the above please seek support from HEI and fill out cause for concern form (Appendix 1)	
Name of the Practice Educator	Zlatina Nikolova
Name of the Learner	Elvio Mendes

End of Placement Assessment		
The learner;	Please Select	Comments

Complies with standards of dress, appearance and hygiene in relation to organisational policy	Yes	
Is punctual and has good time keeping	Yes	

Practice Educators Comments
Examples of when these have/have not been followed should be stated specifically as well as advice provided to learner

Throughout the placement, Elvio consistently demonstrated a very high standard of professional behaviour. He was always punctual, well prepared, and presented himself in a professional manner in line with organisational policy. Elvio showed clear awareness of his role and scope of practice, worked safely and ethically, and approached all activities with maturity and responsibility.He consistently respected confidentiality and managed sensitive information appropriately.

Learner Comments
Response to comments from Practice Educator(s). Please include verification that you are familiar with the necessary guidance/principles

Practice Educator Declaration *(to be completed at the final assessment)*

From what I have witnessed on this placement, I have no grounds for concern in relation to the learner's professional attitudes and behaviours. All necessary guidance, policies and procedures have been followed with no more than minimal prompting	Name: Zlatina Nikolova Dated: 18/12/2025
The learner has not met these expectations and further information will be provided to the learner and the HEI (see final outcome page)	Name: Dated:

Learning Domains Midway Assessment

* Cause for concern (Appendix 1) should be completed, if there are concerns at any time in the placement that the learner may not pass the professional behaviours and/or learning domains. The relevant university tutors should also be informed immediately if this form has been completed*.

Learning Domain Number	Descriptor **Link to Rubrics**	Midway Learner Self Evaluation	Midway Practice Educator Evaluation	Comments (practice educator and learner)
1	**Independent Learning** The learner engages in a personal development plan which includes identifying learning needs, identifying and using learning resources, and reflects on and actions their learning in practice.	Outstanding (90-100%)	Pass	Practice Educator:Elvio has demonstrated a proactive approach to learning, actively seeking opportunities to develop his knowledge and skills within the community Learner:
2	**Seeking Reflecting on and Responding to Feedback** The learner appropriately seeks and reflects on feedback received and modifies their personal and professional behaviour accordingly in response to the feedback.	Excellent (70-79%)	Pass	Practice Educator:Elvio engages positively with feedback and demonstrates willingness to reflect and apply suggestions to improve his practice. He shows openness to learning and Learner:
3	**Organisation and Prioritisation** The learner prioritises and manages workload in response to a variety of demands and acknowledges the impact of their actions and decisions.	Excellent (70-79%)	Pass	Practice Educator:Elvio has shown good organisation and time management at this stage of the placement. He attends Learner:

4	**Communication** The learner effectively uses and modifies a wide range of appropriate communication skills and styles (verbal, non-verbal, written and listening) to share and receive information. The learner professionally engages with digital information and technology as appropriate.	Outstanding (90-100%)	Pass	Practice Educator:Elvio communicates clearly and professionally with peers, educators, and community partners. He adapts his communication style appropriately for non-clinical and communitv environments. Learner:
5	**Working with others** The learner understands and respects the role and scope of themselves and others. The learner engages with others, builds effective and collaborative relationships, and works as part of a team. The learner identifies and applies leadership skills in the practice environment.	Very Good (60-69%)	Pass	Practice Educator:Elvio works well within a team and contributes positively to group activities. He shows respect for others' roles and demonstrates collaborative working skills.Although he tends to dominate because of his personal Learner:
6	**Individuals, communities and populations** The learner recognises the impact of culture, equality, equity and diversity on practice and practises in an anti-discriminatory and inclusive manner. The learner identifies and understands the impact of health inequalities, promoting health and wellbeing of themselves and others.	Very Good (60-69%)	Pass	Practice Educator:Elvio has demonstrated some awareness of community health and the impact of social factors on wellbeing. He engages respectfully and inclusively with individuals from diverse backgrounds. Learner:

7	**Gathering and Analysing Information** The learner extracts relevant information from a range of sources and analyses gathered information, drawing reasoned conclusions to identify key issues. The learner develops goals and/or objectives to address identified issues.	Very Good (60-69%)	Pass	Practice Educator:Elvio gathers relevant information from observations, discussions, and research activities. He is developing his ability to identify key issues within community settings. Learner:
8	**Evidence-Based Practice** The learner sources research or evidence to inform effective physiotherapy practice, evaluates and applies research or evidence in practice. The learner reflects on the application of evidence-based practice.	Very Good (60-69%)	Pass	Practice Educator:Elvio demonstrates engagement with evidence and research to inform his understanding of physiotherapy practice in the community. He shows willingness to explore how evidence applies to practice. Learner:
9	**Reasoning and Intervention/Activities** The learner reasons appropriate interventions/activities to the needs of the setting and/or person and applies these safely and/or appropriately. The learner monitors and reviews the ongoing effectiveness of interventions/activities and modifies if appropriate.	Very Good (60-69%)	Pass	Practice Educator:Elvio is able to select appropriate activities relevant to the community setting and applies these safely. He demonstrates developing reasoning skills appropriate to his level. Learner:

10	**Recording Information** The learner identifies, structures and records relevant information, using an appropriate range of approaches and formats. The learner modifies the approach and/or technique to record information as appropriate to the situation.	Very Good (60-69%)	Pass	Practice Educator:Elvio records relevant information appropriately and demonstrates awareness of the importance of clear documentation within the placement. Learner:

Educator feedback/action plan – Midway Please include further feedback and feedforward comments At mid-placement, Elvio has demonstrated a very high level of engagement and professionalism within the community practice setting. He has been punctual, reliable, and proactive, consistently making effective use of learning opportunities through research, preparation, and active participation in placement activities. Elvio communicates well, works collaboratively with others, and shows clear enthusiasm for community-based physiotherapy. Overall, he is progressing very well at this stage of the placement and is making strong use of the
Learner reflection on feedback and action plan for remainder of placement

Please note - all three levels of study are included in the rubric to illustrate expected level of achievement and progression between levels.

Please ensure you use only the descriptors in the row outlined.

If you are unsure of which level descriptors you should use or need any advice regarding the rubric or assigning marks – please contact your University Link Tutor.

Please note, all three levels of study included in the rubric to illustrate expected level of achievement and progression between levels is available in Appendix 5.

	Outstanding (90-100%)	Exceptional (80-89%)	Excellent (70-79%)	Very Good (60-69%)	Good (50-59%)	Satisfactory (40-49%)	Fail (30-39%)	Fail (0-29%)
Level 5 / SCQF Level 9 Back to LDs	Consistently and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently able to achieve this domain with minimal input from others.	Infrequently requires minimal support or prompts to facilitate achievement in this domain.	Frequently requires minimal support or prompts to facilitate achievement in this domain.	Moderate support or some prompts required to facilitate achievement in this domain.	Requires significant ongoing prompts and support from others to facilitate achievement in this domain.	Despite continued prompting and support the learner is unable to achieve in this domain.	Despite consistent significant and continued prompting and support unable to achieve in this domain. Or learner makes limited or no attempt to engage in this learning domain.

Learning Domains Final Assessment

Learning Domain Number	Descriptor **Link to Rubrics**	Final Learner Self Evaluation	Final Practice Educator Evaluation	Comments (practice educator and learner)
1	**Independent Learning** The learner engages in a personal development plan which includes identifying learning needs, identifying and using learning resources, and reflects on and actions their learning in practice.	Exceptional (80-89%)	Pass	Practice Educator:By the end of the placement, Elvio demonstrated a high level of independence in his learning. He consistently took initiative, actively sought opportunities to Learner:
2	**Seeking Reflecting on and Responding to Feedback** The learner appropriately seeks and reflects on feedback received and modifies their personal and professional behaviour accordingly in response to the feedback.	Exceptional (80-89%)	Pass	Practice Educator:Elvio consistently engaged with feedback and demonstrated clear ability to reflect and apply it effectively. He showed strong progression over the placement, using feedback to Learner:
3	**Organisation and Prioritisation** The learner prioritises and manages workload in response to a variety of demands and acknowledges the impact of their actions and decisions.	Exceptional (80-89%)	Select...	Practice Educator:Elvio demonstrated very good organisational and prioritisation skills by the end of the placement. He managed responsibilities Learner:

4	**Communication** The learner effectively uses and modifies a wide range of appropriate communication skills and styles (verbal, non-verbal, written and listening) to share and receive information. The learner professionally engages with digital information and technology as appropriate.	Exceptional (80-89%)	Pass	Practice Educator:Elvio communicated confidently and professionally across a range of contexts. He adapted his communication well for community and non-clinical settings, engaging effectively with service users, peers, and professionals. Learner:
5	**Working with others** The learner understands and respects the role and scope of themselves and others. The learner engages with others, builds effective and collaborative relationships, and works as part of a team. The learner identifies and applies leadership skills in the practice environment.	Excellent (70-79%)	Pass	Practice Educator:Elvio worked extremely well with others and contributed positively to teamwork throughout the placement. He demonstrated strong collaborative skills, supported group activities, and showed respect for the roles Learner:
6	**Individuals, communities and populations** The learner recognises the impact of culture, equality, equity and diversity on practice and practises in an anti-discriminatory and inclusive manner. The learner identifies and understands the impact of health inequalities, promoting health and wellbeing of themselves and others.	Exceptional (80-89%)	Pass	Practice Educator:By the end of the placement, Elvio demonstrated a strong understanding of the impact of culture, diversity, and health inequalities on health and wellbeing. He consistently practised in an inclusive, Learner:

7	**Gathering and Analysing Information** The learner extracts relevant information from a range of sources and analyses gathered information, drawing reasoned conclusions to identify key issues. The learner develops goals and/or objectives to address identified issues.	Exceptional (80-89%)	Pass	Practice Educator:Elvio showed clear improvement and confidence in gathering and analysing information from a range of sources. He was able to identify key issues within community contexts and link information effectively to Learner:
8	**Evidence-Based Practice** The learner sources research or evidence to inform effective physiotherapy practice, evaluates and applies research or evidence in practice. The learner reflects on the application of evidence-based practice.	Exceptional (80-89%)	Pass	Practice Educator:Elvio demonstrated strong engagement with evidence-based practice by the end of the placement. He showed increased confidence in linking research, guidance, and learning to community-based physiotherapy Learner:
9	**Reasoning and Intervention/Activities** The learner reasons appropriate interventions/activities to the needs of the setting and/or person and applies these safely and/or appropriately. The learner monitors and reviews the ongoing effectiveness of interventions/activities and modifies if appropriate.	Exceptional (80-89%)	Pass	Practice Educator:By the end of the placement, Elvio demonstrated strong reasoning skills when selecting appropriate activities and interventions. He applied these safely and appropriately and showed good awareness of Learner:

10	**Recording Information** The learner identifies, structures and records relevant information, using an appropriate range of approaches and formats. The learner modifies the approach and/or technique to record information as appropriate to the situation.	Exceptional (80-89%)	Pass	Practice Educator:Elvio demonstrated clear improvement in recording information accurately and in a structured manner. He adapted his documentation appropriately to different Learner:

Educator feedback/action plan – Final Please include further feedback and feedforward comments By the end of the placement, Elvio has performed to a very high standard and demonstrated excellent progression across all learning outcomes. He consistently showed professionalism, reliability, and maturity within the community practice setting, attending punctually and engaging fully with all aspects of the placement. Elvio made outstanding use of the learning opportunities available, taking initiative in research, planning, and delivery activities and demonstrating clear ownership of his learning.Elvio's proactive approach, strong communication skills, and ability to work
Learner reflection on feedback and action plan for remainder of placement

Despite consistent significant and continued prompting and support unable to achieve in this domain. Or learner makes limited or no attempt to engage in this learning domain.

Feedback from Others

Throughout the course of the placement the learner will likely be working alongside others possibly including service users, members of the MDT and those in non-clinical roles. Feedback from such people is extremely valuable.

Although this part is not compulsory, we strongly encourage active use throughout the practice placement.

Please use the space below to provide feedback to the learner, this may be anonymous.

Appendix 2: Reflective Practice Templates

This section includes two templates to support you reflecting on your practice whilst on placement. Reflection may take different forms and there are no right or wrong ways to do it. You may choose to write them down using the templates attached, record them on your phone or speak them out loud. What is important is that you engage in reflective practice, asking yourself the questions highlighted amongst others. This adds layers to your learning, deepens your understanding and can support your achievement within the learning domains.

The CSP ePortfolio is an online digital portfolio of your work, reflections and achievement. It contains lots of different Continual Professional Development (CPD) templates and allows you to share content with others, including your practice educator(s). This tool is available to members of the CSP. Please visit the CSP ePortfolio pages of the web site to find out more.

Learning from doing[1]

Describe briefly a recent significant experience in your professional life	
What did you do…	and why?
What went well?…	and what could have been better?

What would you do differently, if anything, if faced with a similar situation again?	How did you feel during the experience?
Describe what you learnt from this experience (learning outcomes)	
What is your action plan from this incident?	
Date:	
Review Date:	
I can use this evidence for (select as appropriate) ☐ Appraisal ☐ HCPC ☐ CPD ☐ KSF ☐ Other Please specify	

What? So what? Now what?[2]

What? (This is the description & self-awareness level. All questions start with the word what e.g. What happened? What did I do? What was I trying to achieve? What was good/bad about the situation?)
So what? (This is the level of analysis and evaluation. All questions start with the phrase so what? e.g. So what is the importance of this? So what more do I need to know about this? So what have I learnt about this?)

Now what? (This is the level of synthesis. All questions start with the phrase now what? e.g. now what could/should I do? Now what do I need to do? Now what might be the consequences of this action?)
Date:

I can use this evidence for (select as appropriate) ☐ Appraisal ☐ HCPC ☐ CPD ☐ KSF ☐ Other

Appendix 3: Additional SWOC Analysis

Strengths What do you do well? What do others see as your strengths?	Weaknesses What could you improve? What are you less confident about?
Opportunities What opportunities are available to you? How can you turn your strengths into opportunities?	Challenges What challenges or hurdles may you meet along the way?
Date:	

Appendix 4: Glossary of Terms

Term	Description
Critically/criticality	Critical thinking is a process used to think about and evaluate information then reach a conclusion. In this context the word critical is not negative. It means that you should not automatically accept that what you are reading is valid, true, applicable or correct. Instead, you should gather the evidence, acknowledge your own values and beliefs, analyse all aspects and reach your own conclusion
Frequency	Consistently: used to describe a situation where the learner meets the requirements of the criteria >90% of the time. Should be measured over a defined period of performance preceding the mid-way/final assessment and not over the duration of placement Most/ frequently: >60% but <90% of the time Some/ infrequently: >30% but <60% of the time Occasional/minimal: used to describe a situation where the learner meets the requirements of the criteria <30% of the time
Independent	Capable of acting for oneself or on one's own (proportionate with level of study)
Leadership	Ability to lead, demonstrates leadership qualities e.g. focus on self, working with others or improving healthcare
Prompting	Used to describe a situation where the practice educator provides input to the learner by the use of a key word, indirect or open questioning to facilitate learning
Reflective Practice	The process of reviewing an episode of practice to describe, analyse, evaluate and inform professional learning. New learning modifies previous perceptions, assumptions and understanding and the application of this learning to practice influences interventions and outcomes
Support	Used to describe a situation where the practice educator provides input to the learner by the use of explanations, guidance and direction to facilitate learning

Appendix 5: Full rubric (Level 4, Level 5 and Level 6)

	Outstanding (90-100%)	Exceptional (80-89%)	Excellent (70-79%)	Very Good (60-69%)	Good (50-59%)	Satisfactory (40-49%)	Fail (30-39%)	Fail (0-29%)
Level 4 / SCQF Level 8	Consistently and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently able to achieve this domain with minimal facilitation from others.	Limited support or prompts required to facilitate achievement in this domain.	Minimal support or infrequent prompts required to facilitate achievement in this domain.	Moderate support and prompts required to facilitate achievement in this domain.	Predominantly dependent on others to facilitate achievement in this domain.	Despite consistent, significant and continued prompting and support the learner is unable to achieve in this domain.	Learner makes limited or no attempt to engage in this learning domain.
Level 5 / SCQF Level 9	Consistently and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently able to achieve this domain with minimal input from others.	Infrequently requires minimal support or prompts to facilitate achievement in this domain.	Frequently requires minimal support or prompts to facilitate achievement in this domain.	Moderate support or some prompts required to facilitate achievement in this domain.	Requires significant ongoing prompts and support from others to facilitate achievement in this domain.	Despite continued prompting and support the learner is unable to achieve in this domain.	Despite consistent significant and continued prompting and support unable to achieve in this domain. Or Learner makes limited or no attempt to engage in this learning domain.

Level 6 / SCQF Level 10	Consistently, critically and independently able to achieve this domain in a way that could not be bettered for the level of study and time available.	Consistently, critically and independently able to achieve this domain.	Consistently and critically able to achieve this domain with minimal input from others.	Infrequently requires limited support or prompts to facilitate achievement in this domain, with some elements of criticality.	Frequently, requires minimal support or occasional prompts to facilitate achievement in this domain, with some elements of criticality.	Occasionally requires moderate support from others to facilitate achievement in this domain. Overall is safe to practice.	Despite consistent, significant and continued prompting and support is unable to achieve this domain. Predominantly dependent on others to facilitate achievement in this domain.	Despite significant and continued prompting unable to achieve in this domain. Or Learner makes limited or no attempt to engage in this learning domain.

Please note - all three levels of study are included in the rubric to illustrate expected level of achievement and progression between levels.
Please ensure you use only the descriptors in the row outlined.
If you are unsure of which level descriptors you should use or need any advice regarding the rubric or assigning marks – please contact your University Link Tutor.

Appendix 5: Frequently Asked Questions

Q. I have concerns about a learner's performance, what should I do?

A. If there are concerns at any time in the placement that the learner may not pass the professional behaviours and/or learning domains, the relevant university tutors should be informed and the cause for concern form filled in (appendix 1). If there is any unsafe practice and/or unprofessional behaviour this should be discussed with the learner at the time of the incident. This must then be documented within both 'Professional Behaviours and Responsibilities' and the 'Cause for Concern' section located in Appendix 1 and must be flagged with the learner's university link tutor at the earliest time possible.

An action plan must be clearly documented after any cause for concern as well as during the midway assessment in order to maximise the learner's ability to achieve an acceptable standard of practice.

Please refer to the relevant university processes for further information regarding poor performance.

Frequently asked questions about marking a learning domain.

Q. What is required to pass a learning domain?

A. Using the assessment criteria, practice educator(s) are required to make a professional judgement about the learner's level of ability. Practice educators and learners should select the appropriate ability achievement at both the midway and final assessment points.

As there is variation in what constitutes a pass mark between universities (eg. At some it is 40% and others it is 50%), please check with your local university to ensure that you are aware of their Pass/Fail threshold.

Q. When is written feedback provided?

A. Please provide comments at midway point and final assessment. At the midway point, please complete the 'action plan' to allow any steps to be put in place within the second half of the placement.

Q. What if a learner is awarded a 'fail' mark at the midway assessment?

A. The learning domains indicate learner achievement by the end of the placement and they may not all be met by the midway point (either via opportunity or performance). If this is the case however, practice educator(s) and learner should work together to ensure the action plan for the second half of placement clearly details the steps that will be put in place to support achievement. If you feel that a learner is at risk of failing this whole section by the end of placement point, this must be flagged with the university link tutor at the earliest possible opportunity.

Q. What if I feel the learning domain is not achievable in my placement setting?

A. The learning domains are applicable in a diverse range of placement settings; in person and remote as well as non-patient facing areas of practice. For examples of how they may be demonstrated in different areas with different models of supervision, please refer to the CPAF Guidance Documents. Please seek guidance from the HEI if you deem any of the domains unachievable in your practice environment.

Q. Should practice educators provide a specific % or grade boundary for each learning domain?

A. Please seek university guidance regarding this.

Q. How is a final award calculated?

A. For the end of placement assessment, the practice educator(s) will award the appropriate percentage/grade boundary for each learning domain. The final numerical mark should be an overall mark that represents the learner's performance on placement.

Q. What should I do if I face discrimination on placement?

A. The CSP promotes anti-discriminatory practice and does not tolerate discrimination of any kind towards any individual

Research and student lived experience tells us that some learners experience unacceptable discrimination whilst on placement from both staff and patients. The CSP urge staff and learners to report and challenge discriminatory behaviour to the workplace management and the university link tutor where matters should be addressed in line with local policy and procedures. Those experiencing discrimination are encouraged to access available support networks including; Placement Tutors, University pastoral support, NUS student officers, workplace support offered by your placement provider, Student Reps, CSP Diversity Networks, family and friends.

Q. What factors that might affect my learning should I disclose to my practice educator?

A. Factors could include (amongst others):

- Concerns about risk of discrimination linked to protected characteristics (age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership and pregnancy and maternity)
- Concerns regarding accessibility/access adjustments
- Social or family circumstances such as living environment, caring responsibilities or travel issues
- Health or wellbeing issues relating to physical and/or mental health
- Financial issues such as travel costs or access
- Religious or cultural beliefs, values or practises
- Previous problems encountered during placements

- Previous experiences such as bereavement, personal or family health or wellbeing issues that may be relevant to how the learner experiences the placement setting

Q: What if I do not have Adobe Acrobat Reader?

A: You can easily download and install it by following these steps:

- Open your web browser and go to the official Adobe website. The direct link to the download page is Adobe Acrobat Reader Download.
- Click the “Download Acrobat Reader” button. This will download the installer file to your computer.
- Follow the on-screen instructions to complete the installation. This typically involves agreeing to the terms and conditions and selecting the installation location (default is usually fine).
